

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

JOHN MULLAN,

ATTORNEY AND COUNSELLOR AT LAW,

STATE AGENT FOR CALIFORNIA, OREGON AND NEVADA.
ALSO AGENT FOR WASHINGTON TERRITORY.

WASHINGTON CITY, D. C.,
January 3, 1889.

PETITION.

To the Legislative Assembly of the State of Oregon :

Your petitioner, John Mullan, now residing in Washington City, District of Columbia, would respectfully show to the honorable legislative assembly of the State of Oregon, that, while heretofore he has requested the Governor and Secretary of State to invite your attention to his claim against the State of Oregon, yet he deems it not improper that for your information he should also state specifically the details thereof and how the same arose.

The claim of your petitioner consists of four items as follows, to-wit:

- | | | |
|-------------|--|------------|
| Item No. 1. | For payment of 10 per cent of \$70,268.08 collected from the United States by your petitioner, the same being moneys expended by the State of Oregon in suppressing Modoc Indian hostilities during the Modoc Indian war in 1872 and 1873----- | \$7,026 80 |
| | Amount brought forward ----- | \$7,026 80 |
| Item No. 2. | For payment of 10 per cent of \$5,271.10 collected by your petitioner from the United States, the same being 15 per cent of \$35,140.67, the cost of the assumption and collection by the State of Oregon of her quota of the direct war tax levied under the act of congress of August 5, 1861----- | 527 11 |
| Item No. 3. | For payment for securing the approval and certification by the United States to the State of Oregon between January 1, 1885, and April 1, 1887, of 11,824.44 acres of State school lands at 1 cent per acre----- | 118 22 |

Item No. 4. For payment of compensation as counsel
for the State of Oregon in land cases and in
land contests in which the State of Oregon
was a party for 27 months, from January 1,
1885, to April 1, 1887, at \$1,000 per year-- 2,250 00

Making a total aggregate of----- \$9,922 13

No portion of any of which has ever heretofore been paid by
the State of Oregon to your petitioner.

FIRST.

For the purpose of laying before you a full and intelligent statement of items Nos. 1 and 2 of the foregoing recitals, your petitioner encloses you herewith and makes a part hereof a copy of senate Ex. Doc. No. 18, 50th congress, 2d session, same being a letter addressed on December 14, 1888, to the senate by the Hon. secretary of the treasury in response to a senate resolution of inquiry in reference to the two settlements therein recited as theretofore had between the United States and the State of Oregon, through me as her agent, and which information was called for by Senator Mitchell, at the suggestion and request of your petitioner.

Item No. 1, or the Modoc Indian war settlement, is set forth on page 6 of said senate Ex. Doc., No. 18.

At and prior to the date of this settlement, although the State of Oregon had assumed the collection and payment of the whole of her quota, \$35,140.67 of the direct war tax levied under the act of congress of August 5, 1861, yet she had not voluntarily paid any portion whatsoever thereof up to March, 1882. But as soon and as fast as it was found that the United States owed the State of Oregon any moneys from any sources, the amount of such moneys, instead of being paid by the United States in cash to the State of Oregon, were simply entered up on the books of the treasury department as *pro tanto* credits on her said delinquent direct war tax account, and the moneys representing such credits were covered back into the treasury of the United States.

This system of book-keeping was first inaugurated by the United States treasury in the case of the State of Oregon, by treating her earnings arising from the net proceeds of the cash sales of the public lands made by the United States in Oregon as so many set-offs *pro tanto* to her said delinquent direct war tax account.

As soon as the Governor of Oregon, Hon. W. W. Thayer, learned that the officers of the United States treasury department, instead

of paying him, in cash for the State, her quota of earnings of said net proceeds of the cash sales of the public lands made in Oregon by the United States, were simply using said moneys as credits *pro tanto* on Oregon's delinquent direct war tax account, he directed your petitioner to investigate this matter, and to interview the proper United States officials, and to protest against any such system of adjusting said accounts, and to do all else that was proper to be done in these premises.

Protests were duly made by your petitioner to Hon. William Lawrence, then first comptroller of the United States treasury, charged by law with the control of this class of claims and assets. But these protests were without avail, and because it seemed that the rule so adopted in the case of the State of Oregon was similar in all respects to that adopted by the treasury officials and by them applied when adjusting similar claims of other States under similar circumstances whenever any State was delinquent on account of said direct war tax debt.

In the name of the State of Oregon your petitioner then demanded that Oregon should be refunded or at least credited with a rebate of 15 per cent of whatever payments were so credited on said delinquent direct war tax account, as an equivalent under said act of congress of August 5, 1861, for assuming the collection and payment of her quota of said tax.

But the reply of First Comptroller Lawrence was to the effect that the time within which the United States treasury officials were permitted to credit this rebate of 15 per cent or pay the same under said act of congress had passed, and that Oregon should look to congress; which alone could afford the adequate and proper relief in these premises.

By following this system of adjusting accounts, adopted by the United States in this class of claims, of crediting on said direct war tax account all sums of money that the State of Oregon had earned, arising from the net proceeds of the cash sales of the public lands made by the United States in Oregon, and using the same as set-offs, said direct war tax debt of \$35,140.67 had thereby been diminished in 1882 in the sum of \$1,891.60, and left the amount then due by the State of Oregon to the United States on account of said direct war tax the sum of \$33,249.07.

When, therefore, your petitioner, in 1883, had secured a final adjustment of the Modoc Indian war claim, in the sum of \$70,268.08, the United States treasurer issued two drafts in payment thereof, one of which was for the sum of \$7,026.80 (same being 10 per cent of said \$70,268.08, due your petitioner as his 10 per cent commission

for collecting the same under his appointment from the State of Oregon), and the other for the sum of \$63,241.28.

But First Comptroller Lawrence, instead of delivering said two drafts so drawn, did temporarily withhold both of the same and did direct that the sum of \$33,249.07, the balance then stated to be still due the United States by the State of Oregon on account of said delinquent direct war tax should be deducted from the larger of said two drafts, which, when done, left the sum of \$29,992.21 as the true balance then due the State of Oregon by the United States in the opinion of the United States treasury department, and for which last-named sum the United States treasurer duly issued his draft in favor of the Governor of Oregon, and which draft for \$29,922.21 and said draft for \$7,026.80 were then duly delivered to your petitioner and by him duly transmitted to Hon. Z. F. Moody, Governor of Oregon, with the request that said Governor should pay your petitioner his said fee with the smaller draft of \$7,026.80. But Governor Moody, as he at the time duly informed your petitioner, believing that it was his duty to deposit both of said two drafts in the State treasury, and let the legislative assembly of the State of Oregon thereafter make an appropriation in its regular and usual way, with which to pay your petitioner his said fee, did deposit both of said two drafts in the State treasury where the proceeds thereof were duly placed to the credit of the general fund. (See statement on pages 4 and 5 of said senate Ex. Doc. No. 18.)

SECOND.

Being thus convinced that the only method left to your petitioner to secure a rebate of said 15 per cent of \$35,140.67 (Oregon's quota of said direct war tax) was by relief from congress, and proceeding under the authority conferred upon your petitioner to collect all claims of that class due to the State of Oregon by the United States, and though the matter of Oregon's right to this 15 per cent rebate had been permitted to slumber for about 22 years, and though the State of Oregon did not actually pay, until 1883, the debt of her direct war tax which she had been expected to pay in 1862, and which debt her legislative assembly by Act had assumed to pay, and that, too, in gold coin at a date when one dollar in gold was worth about two dollars in legal-tender notes, your petitioner, nevertheless, undertook to recover for the State of Oregon as late as 1883, as a matter of equity if not of law, a rebate of 15 per cent of her said quota of \$35,140.67 of said direct war tax. The full amount of this rebate was in due time secured by your petitioner and fully paid by the United States, to-wit: The sum of \$5,271.10 (see page 4 of said

senate Ex. Doc. No. 18) by draft duly issued for said sum, made payable to the Governor of Oregon and delivered to your petitioner, and by him delivered to Hon. Z. F. Moody, Governor of Oregon, who in this case took the same view as to the payment of your petitioner's fee of 10 per cent thereof as he had taken in his collection of said Modoc Indian war claim.

So that the aforesaid two collections of money made by your petitioner for the State of Oregon, aggregating \$75,539.18, were duly reported by him to the State officials of Oregon, but no portion of his fee of 10 per cent thereof, to-wit, \$7,553.91, has ever yet been paid to him.

These matters were duly brought to the attention of the legislative assembly of Oregon in 1885 and again in 1887, but the legislature adjourned in each of said years without making any appropriation with which to pay the same. The State of Oregon has had the full use and benefit of all said sums, the same having been used as follows, to-wit:

First.	To pay off and cancel the old direct war tax debt due by the State of Oregon to the United States, in the sum of-----	\$33,249.07
Second.	There was paid to her in cash and placed in her general fund the sum of-----	29,922.21
Third.	Paid also in cash and placed in her general fund the sum of-----	7,026.80
Fourth.	Paid also in cash and placed in her general fund the sum of-----	5,271.10

Making a total aggregate of collections as aforesaid of---- \$75,469.18

Items 3 and 4 are due your petitioner under an agreement made with him by the Governor of Oregon, Hon. W. W. Thayer, and for which no appropriation has ever heretofore been made by the legislative assembly of Oregon with which to pay the same.

As the State of Oregon has always dealt equitably with those having legal or valid claims against her, it would seem to your petitioner to be only equitable when your honorable body makes an appropriation with which to pay this claim, as herein set forth, that *interest* thereon should be allowed from the date when said claims were due and payable up to the date of the full payment of the principal thereof.

Wherefore your petitioner, having fully and faithfully performed every act and thing necessary to be done by him in order to secure these results, as in this petition set forth, and not having received any compensation therefor, and having long been deprived of the

whole thereof, he now prays the legislative assembly of the State of Oregon that all the matters herein set forth may have the consideration of its members, and that an appropriation with which to pay said claim *with interest* may be made during its session, to be convened at Salem, Oregon, on January 14, 1889.

JOHN MULLAN,

Agent for the State of Oregon, Petitioner.

AFTERNOON SESSION.

The senate met at the usual hour and was called to order by President Simon.

The roll was called and all the Senators present except Mr. Chamberlin.

The President presented the following communication from the Oregon pioneer association :

PORTLAND, Oregon, January 19, 1889.

Hon. Joseph Simon, President of the Senate, Salem, Oregon—

DEAR SIR: At the annual reunion of the Oregon pioneer association held in this city in 1887, the citizens of Portland presented a fine oil painting of Dr. John McLoughlin to the association. (For particulars see pamphlets herewith sent, entitled "Transactions for 1886 and 1887.") In view of the great kindness and generosity of the "good old Doctor" to the early settlers of this State, many of whom still live to bear witness to these facts, the association has deemed it fitting to present this painting to the State, so that it may find a permanent place in the legislative halls, and thereby be a constant reminder to all of the noble-hearted man who, while not an American, was more than any other one person a benefactor to the early pioneers of Oregon, and in so doing deservedly honor his memory. With this end in view, the board of directors—Joseph Watt, president, Amity; W. S. Ladd, vice-president, Portland; Geo.

H. Himes, secretary, Portland; John M. Bacon, treasurer, Oregon City; F. X. Matthieu, Marion county; Wm. Elliot, Clackamas county; Wm. Savage, Polk county—at a meeting duly called on October 18, 1888, appointed Hon. John Minto of Marion county to formally present the painting to the State, at such time as may be deemed wise by yourself or the legislative body over whom you preside. A letter of like tenor with this, of even date, has been addressed to Hon. E. L. Smith, Speaker of the house; also, Mr. Minto has been advised of his appointment. Owing to my inability to be present at Salem during the session of the legislature, I have deputized Hon. Geo. W. McBride, Secretary of State, to act for me in all needed ways in the premises, who, with Mr. Minto, will consult with you and Mr. Smith as to the most appropriate time for the presentation.

With respect, I remain,

Very truly yours,

GEO. H. HIMES,

Secretary of the Oregon Pioneer Association.

Mr. Chamberlin moved that a committee of one be appointed to confer with a like committee from the house to meet and make necessary arrangements for the time and place for the acceptance of the oil painting mentioned in the foregoing communication.

Which motion prevailed.

The President appointed as such committee Mr. Chamberlin on the part of the senate.

Senate bill No. 38 was read a second time, and on motion of Mr. Dawson, referred to the committee on education.

Senate bill No. 39 was read a second time, and on motion of Mr. Wager, referred to the committee on roads and highways.

Senate bill No. 40 was read a second time, and on motion of Mr. Chandler, ordered engrossed and passed to a third reading tomorrow.

Senate bill No. 41 was read a second time, and on motion of Mr. Cogswell, referred to the committee on elections.

MESSAGE FROM THE HOUSE.

HOUSE OF REPRESENTATIVES, }
SALEM, Oregon, }
January 22, 1889. }

Mr. President:

I am directed by the Speaker to inform you that he has appointed Mr. Apperson on the part of the house as joint committee to arrange a joint meeting of the two houses for the acceptance of the painting of Dr. McLoughlin from the Oregon pioneer association.

J. T. GREGG,
Chief Clerk.

Mr. Wager introduced the following memorial :

SENATE JOINT MEMORIAL NO. 3.

To the Honorable Senators and Representatives in Congress from Oregon :

Your memorialist, the legislative assembly of the State of Oregon, hereby respectfully represent that,

WHEREAS, The Columbia river is obstructed at the Cascades [and] at The Dalles, rendering navigation thereof impossible; and,

WHEREAS, In consequence of such obstructions, a very large area of productive country is largely dependent upon a single railroad corporation, and is in consequence subjected to extravagant and unreasonable freight charges; and,

WHEREAS, The locks at the Cascades now in process of construction will evidently not be completed for a long time; and,

WHEREAS, Even when they are completed the obstructions from The Dalles to Celilo will still remain; and,

WHEREAS, With an opposition portage railroad around said obstructions between The Dalles and Celilo navigation would be greatly facilitated, and much relief afforded to all of Eastern Oregon, Eastern Washington and Idaho even with the locks uncompleted; and,

WHEREAS, The country along the Columbia river is now occupied by the Oregon Railway & Navigation Company's railroad, and it is doubtful if either the State of Oregon or a private incorporation can build and operate a railroad along said Oregon side of the Columbia river; and,

WHEREAS, A railroad along the north side of the river in Washington Territory between The Dalles and Celilo can be easily and cheaply constructed; therefore

We urgently request you and each of you to use all efforts in your power to present and pass a bill in congress condemning a strip of land in Washington Territory along the Columbia river sufficient for the construction and maintenance of a railroad so as to make connection with boats above Celilo and below The Dalles and to make sufficient appropriation by the General Government to pay all damages arising therefrom, either to said Territory or any private incorporation or individuals, also to make such provision as may be within the power of congress to assist the State of Oregon or the Territory of Washington or any private incorporation formed under the laws of Oregon or Washington, for the purpose of building such road.

And for this purpose your memorialists will ever pray.

The foregoing senate joint memorial No. 3, under the rules, was ordered printed.

Mr. Hamilton introduced the following memorial:

SENATE JOINT MEMORIAL NO. 4.

To the Congress of the United States: .

Your memorialist, the legislature of the State of Oregon, in senate and house of representatives assembled, respectfully represents that the interests of the people will be subserved by a reclass-

ification of the public lands so as to make a distinct class of those large tracts which are wholly pastoral and not adapted to any use except grazing, and profitable for that only in larger tracts than the law at present permits to be acquired. These pastoral lands are either at such an altitude, or arid and impossible of irrigation as to be useless for tillage. Their only value is in the natural grasses which they produce, and which are being rapidly destroyed by overstocking. This overstocking is due to the desire of the owners of herds to get all they can off of land belonging to the Government, whereas, if it were opened in grazing tracts of suitable area to private ownership, the preservation of its natural herbage and pasture plants would become a matter of private self-interest, and this valuable means of maintaining the meat supply of the country would be perpetuated.

We respectfully ask that congress will give to this great pastoral interest the same opportunity to acquire lands fit only for its use that has been given to the mineral, agricultural and timber interests.

In a few years if these pastoral lands are not conserved by private ownership, they will be useless for grazing, because, whether their peculiar character is due to altitude or aridity, the renewal of plant growth, after root and seed are destroyed, is so slow that generations will go by before the lands will again support animal life.

Your memorialist begs to represent the necessity of prompt consideration of this subject, in order to preserve the sole value of vast areas of the public domain.

The foregoing senate joint memorial No. 4, under the rules, was ordered printed.

Mr. Gray introduced the following resolution :

SENATE JOINT RESOLUTION NO. 2.

WHEREAS, There is now a large immigration coming into this State and the public lands are being sought for homes for incoming settlers; and,

WHEREAS, There are many settlers at this time upon unsurveyed public lands and who have made and are making for themselves homes and putting valuable and permanent improvements thereon, and who are unable to secure title to their homes, and are liable to lose their improvements and the fruits of their toil because of their inability to ascertain the proper boundary or locate the lines of their claims; and,

WHEREAS, There are large tracts of stone and timber lands which should be surveyed so that title thereto could be obtained under existing laws, thus adding to the wealth and resources of the State of Oregon; and,

WHEREAS, The present prices for surveying the public lands are inadequate to secure the same; therefore,

Be it resolved by the Senate, the House concurring:

That our Senators and Representatives in congress be requested to use every legitimate means to secure a law providing for the survey of the public lands within this State covered with forests or thick undergrowth, at a maximum price of not exceeding twenty-four dollars per mile for standard parallels, twenty dollars for township, and sixteen dollars for section lines, and to obtain a sufficient appropriation for making surveys thereunder without delay.

Be it further resolved, That the Secretary of State transmit a copy of this resolution to each of our Senators and to our Representative in congress.

The foregoing senate joint resolution No. 2, under the rules, was ordered printed.

Mr. Gray introduced the following resolution:

SENATE JOINT RESOLUTION NO. 3.

WHEREAS, The congress of the United States did in the year 1870 grant to the Oregon Central Railroad Company certain public lands, situated in Clatsop, Columbia, Tillamook, Washington and Yamhill counties, in the State of Oregon, for the purpose of aiding in the construction of the Oregon Central railroad from Portland to Astoria and McMinnville in said State; and,

WHEREAS, Many settlers, with the belief that said road would be built, have purchased lands from the Government at \$2.50 per acre along the line of said road, the said price being established by the Act of congress granting the said lands to said road; and,

WHEREAS, By Act of congress said lands were forfeited back to the Government, thereby depriving said settlers of the benefits and conveniences which the completion of said road would have secured to them, and resulting in great loss to them, and it is but just and right that said settlers purchasing Government land in good faith for the purpose of making homes, and who have suffered hardships and losses by reason of the failure of the construction of said road, and the forfeit of its lands, should be reimbursed by the General Government for the excess paid for said lands above the minimum price for the same; therefore,

Be it resolved by the Legislative Assembly of the State of Oregon:

That our Senators and Representatives in congress are hereby

instructed and requested to use all proper means for the passage of an Act to reimburse such settlers for the excess paid by said settlers for their lands.

The foregoing senate joint resolution No. 3, under the rules, was ordered printed.

On motion of Mr. Cogswell, the senate adjourned.

JOHN H. SHUPE,

The President announced that the time had arrived for the senate to meet the house of representatives in joint convention for the purpose of canvassing and declaring the vote for United States Senator.

Whereupon the senate repaired to the hall of the house of representatives.

JOINT CONVENTION.

The joint convention was called to order by the President of the Senate.

The Chief Clerk of the Senate called the roll of the senate.

All the Senators were present except Mr. Cogswell.

The Chief Clerk of the House called the roll of the house.

All the Representatives were present except Mr. Ladd.

The President stated the object of the joint convention to be the canvassing of votes cast for United States Senator in the two houses of the legislative assembly of the State of Oregon on yesterday, and to declare the result thereof, and to take such further proceedings in the premises as might be required by the Act of congress, approved July 25, 1866.

By the direction of the President, the Chief Clerk of the Senate read from the senate journal of yesterday the proceedings had in

that body concerning the election of United States Senator for the State of Oregon, from which it appeared that on that day a vote had been duly taken for United States Senator for Oregon in accordance with the Act of congress, approved July 25, 1866; that on said ballot the whole number of votes cast was 30, of which Hon. J. N. Dolph had received 21, and Hon. Sylvester Pennoyer, 9. And that Hon. J. N. Dolph having therefore received a majority of all the votes cast, was declared the choice of the senate for United States Senator for Oregon.

The Clerk of the House of Representatives then read in like manner from the house journal of yesterday the proceedings had in that body on the same subject, from which it appeared that a vote had been duly taken on that day in the house of representatives for United States Senator for the State of Oregon, as required by said Act of congress; that the whole number of votes cast was 59, of which Hon. J. N. Dolph had received 46; Hon. Sylvester Pennoyer, 9; Hon. Geo. H. Williams, 2; Prof. Thos. Condon, 1; Hon. T. R. Cornelius, 1. That Hon. J. N. Dolph having therefore received a majority of all the votes cast, was declared the choice of the house of representatives for United States Senator for Oregon.

Whereupon the President declared that Hon. J. N. Dolph, having received a majority of all the votes cast in each house of the legislative assembly of the State of Oregon in manner and form provided by law, was declared duly elected United States Senator from the State of Oregon for the term of six years from the 4th day of March, 1889.

The following telegram was read by the Chief Clerk of the Senate:

WASHINGTON, D. C.,
January 22, 1889.

To the Chairman and Members of the Joint Legislative Convention:

Telegrams received inform me that on the ballot for U. S. Senator to-day, I received a majority of the votes in both houses, and that nothing remains to be done but to announce the result in joint convention to-morrow. I am deeply grateful for the honor conferred upon me. To be chosen to represent a State of the Union in so distinguished and able a body as the United States senate is an honor of which any man may be justly proud. To be chosen for a second term to succeed himself is a greater honor. With the experience of six years in the senate, and the position on committees which continuous service will give me for the next six years, I hope to accomplish much more during my next term than it has been possible to accomplish during the present one. The approval of my

official course implied in my re-election shall stimulate me to greater exertions and more earnest and constant efforts to faithfully discharge the important trust that the people of Oregon have imposed upon me. My time and energies shall be devoted to the discharge of my official duties with an earnest purpose to faithfully represent every section of the State and to promote the interests of the whole people.

SENATE JOINT MEMORIAL NO. 5.

To the Honorable Senate and House of Representatives of the United States of America:

Your memorialists, the legislative assembly of the State of Oregon, most respectfully represent:

That the original Territory of Oregon comprised the territory now included in the State of Oregon and the Territories of Washington, Idaho, and a part of Montana.

That the pioneers, who, at an early date, crossed the plains and the Rocky and Sierra Nevada mountains and planted the standard of the United States in the valleys of Oregon, and gave to the Union a vast empire of rich and fertile lands as valuable as that derived from Mexico, at a cost of many valuable lives and treasure, amounting to nearly thirty-five millions of dollars, and of far more importance and infinitely of greater value than the Alaskan Territory, for which it is generally admitted that the money was wisely expended.

All this vast country now furnishing homes for millions of our countrymen and adding untold wealth to the nation was preserved to the Union, and the country opened to settlement by the energy, bravery and perseverance of the early pioneers, who were surrounded on all sides by the Indians, who were friendly and allied with those that were friendly to Great Britain.

That Indian wars and massacres followed and the settlers were put in great peril, and for the protection of their homes were forced to organize and maintain armies unassisted by the General Government, owing to the fact that communication with the seat of Government was almost impossible.

Numerous wars occurred with the various Indian tribes between the years of 1847 and 1857, in which the resources of the new country were sorely taxed and many of the best men were slain and others wounded, but their valor and patriotism sustained them and victory crowned their efforts.

Now these men who were then young and valorous, and were engaged in these deadly conflicts are now old and many of them in sore need of assistance.

Many of them carry wounds received in the line of battle, fighting in as noble a cause as ever sword was unsheathed in or bugle proclaimed. A just and a generous Government has recognized in a proper manner the services of those that did the fighting in all the wars of the General Government, and pensions have been justly granted: but those that struggled in an humbler sphere, the results of which were as far-reaching and their victories as beneficial to the Nation as any others chronicled in our history, go unrewarded, because they were not regularly mustered into the service of the United States; yet their services were as great and their accomplishments were appropriated by the Government. Their victories brought richer rewards to our common country than any other achievements for half a century past, and a generous Government should recognize and reward their valuable labors, and place them on an equality with the veterans of the Mexican war.

Wherefore, your memorialists earnestly but respectfully ask that justice be done to the survivors of the wars during the period between 1847 and 1857, and that the same pensions and benefits granted to the Mexican Veterans be given to those who served in the Indian wars of the Territory of Oregon, in the volunteer service whether of the Territory or General Government.

That this memorial be immediately forwarded to our representatives in congress with the request that they present the same and urge the passage of a law as herein requested.

The foregoing senate joint memorial No. 5, under the rules, was ordered printed.

The following communication was received by the senate and read:

PETITIONS, MEMORIALS AND REMONSTRANCES.

A petition was presented by Mr. Watts relating to State normal schools, which, on motion of Mr. Watts, was referred to the committee on education.

Mr. Hilton introduced the following memorial:

SENATE JOINT MEMORIAL NO. 6.

To the Honorable, the Senators and Representatives of the United States in Congress Assembled:

We your memorialists, the legislative assembly of the State of Oregon, respectfully represent:

That the land grant to the Northern Pacific Railroad Company, coterminous with and adjacent to the Cascade branch of the Northern Pacific railroad, extends over and covers a large area of valuable and fertile lands in the northeastern portion of the State of Oregon.

That the land grant coterminous with and adjacent to the proposed Columbia river branch of said Northern Pacific railroad extending from Wallula, in Washington Territory, to Portland, Oregon, extends over and occupies an immense tract of valuable lands in the northern portion of the State.

That in many cases so-called "railroad lands," that is, lands claimed by the Northern Pacific Railroad Company, and held from claim or settlement under the Acts of congress extended fifty or sixty miles or more from the line where said road or either branch thereof has been located.

That the said Northern Pacific Railroad Company has never built a road or branch thereof between Wallula and Portland, or any part thereof.

That said route is occupied and used by a road built without a grant of land, and there is no prospect nor necessity of building said road between Wallula and Portland by the said Northern Pacific Railroad Company.

That under the Act of congress by which said lands were granted to said company they were long since forfeitable, and, as a matter of justice to the people, should have been long since forfeited.

That a large portion of said lands is now occupied by actual settlers desirous of making for themselves homes, but by reason of the illegal and unjust claim or pretended claim of said company, has created great uneasiness and distrust in the minds of said settlers; thus hindering and retarding the progress and settlement of a large and fertile region of our State by causing vast tracts of land to remain unoccupied, and preventing permanent and valuable improvements from being placed upon such portion as is now occupied, by reason of the unsettled and uncertain condition of said claim or pretended claim of the said Northern Pacific Railroad Company.

That by the forfeiture of said lands it will increase the wealth, prosperity and general welfare of the State of Oregon, and the eastern portion in particular.

And to the end that the greatest good may come to our commonwealth, we, your aforesaid memorialist, most respectfully and earnestly ask:

First—That all the lands of said company coterminous with and adjacent to the proposed Columbia river branch of said road, namely, between Wallula, Washington Territory, and Portland, Oregon, be declared forfeited without delay.

Second—That the forfeiture of said lands do not depend upon the condition of any other portion of the grant of said company than the one mentioned herein; and that the question of the forfeiture herein mentioned be acted upon independently of all others, that the minds of the people may be set at rest and their property rights secured.

And your memorialist will ever pray, etc.

The foregoing senate joint memorial No. 6, under the rules, was ordered printed.

COMMUNICATION FROM THE SECRETARY OF STATE.

OFFICE OF THE SECRETARY OF STATE, }
SALEM, Oregon, }
January 29, 1889. }

To the Honorable, the Senate of the State of Oregon :

I have the honor herewith to return to your honorable body senate bill No. 59 of the fourteenth biennial session of the legislative assembly of the State of Oregon, which bill was duly passed by both houses of said legislative assembly, and was filed in this office by the Governor, with his objections thereto, after the adjournment of said assembly.

I have the honor to be, very respectfully,

Your obedient servant,

GEO. W. McBRIDE,
Secretary of State.

VETO MESSAGE.

STATE OF OREGON. }
EXECUTIVE DEPARTMENT, }
SALEM, February 23, 1887. }

To the Honorable the Senate of the State of Oregon :

I herewith return senate bill No. 59 with my disapproval. This bill for "An Act to Increase the Efficiency of our Common Schools," provides in the first section that "every parent, guardian or other person having control or charge of a child or children between the ages of eight and fourteen years, shall be required to send such child or children to a public school for a period of at least twelve weeks in each school year, unless such child or children are excused from such attendance by the board of directors;" and section three provides that "any parents, guardians or other persons having control of any child or children failing to comply with the provisions of this Act, shall be liable to a fine of not less than five dollars nor

more than twenty-five dollars for the first offense, nor less than twenty-five dollars nor more than fifty dollars for the second and each subsequent offense, besides the costs of prosecution;" and in the second section the directors are empowered to "commence proceedings in the name of the district for the recovery of the fine."

The State has now a commendable system of free schools, but in case this bill should become a law the people of this State would not be a free people. The people of this State are taxed to support the public schools, and this tax is paid cheerfully, but they now have the right to send their children to any private school if they desire to do so, without being questioned by any one or without being compelled to get an "excuse" from "the board of school directors." Our constitution expressly provides that "no law shall in any case interfere with the right of conscience," and therefore if it is a matter of conscience in any individual to pay his tax for the support of public schools, and at the same time pay his children's tuition at a private school, he has an undoubted right so to do without being questioned by the "board of directors" or any other person. This bill infringes upon a right which the parents of this State have always heretofore enjoyed, and it clothes the board of school directors with a power of espionage and supervision over domestic affairs which partakes more of the characteristics of a monarchical than a free government. I therefore, as required by the constitution, file this bill with my disapproval in the office of the Secretary of State this, the 23d day of February, 1887.

SYLVESTER PENNOYER,

Governor.

Senate bill No. 59 of the session of 1887 accompanying the foregoing veto message, being a bill "For an Act to increase the efficiency of our common schools," being now before the senate, Mr. Tongue moved that senate bill No. 59 of 1887, together with the veto message, be ordered printed.

We spent two entire days inspecting the new building presented the State by the citizens of Benton county, and also the site and surroundings of the same. One entire day was consumed in attending the different departments of the college and listening to the critical and elaborate recitations in each of them.

After careful and extended examinations of the different features of the school, as now located and conducted, your committee is of the opinion that too much cannot be said in its praise, nor of the amount of practical good it is possible for it to accomplish for the agricultural interests of the State. Certainly no good reason could be urged against a reasonable appropriation from the State treasury in furthering the usefulness of this college, were it not for the claim against its prosperity by the "Southern Methodist church."

It is an unfortunate condition of affairs that there should be even a semblance of doubt as to the title of the State to its own property, and that doubt exists only in the supposition that a religious denomination has or is about to obtain possession of not only a magnificent fund arising from the proceeds of sales of 90,000 acres of land given the State by the General Government as an irreducible fund, but of an \$15,000 annual appropriation from the National treasury and of \$40,000 worth of land and buildings given to the State for the agricultural college by the citizens of Corvallis and Benton county.

For the possession of this property or these funds the Southern Methodist church has never given one cent. During the last twenty years that church has received from these various sources nearly \$100,000, and the State has not to-day one dollar in either land or buildings to show for it.

That the church has not only been uninjured by its past union with the State, but has been directly benefited, is conclusively shown by the fact that since State aid has been withdrawn the Corvallis college has dwindled to a mere handful of students and is on the downward road to certain decay. It was a mere beneficiary of the State, depending on the State treasury for support, and when denied that aid it sues indirectly for possession of 90,000 acres of land granted the State by the General Government in trust forever; \$15,000 granted the State agricultural college directly from the National treasury, and all the surplus money the people of Benton county have been able to raise for the college for the past five years.

A desire to possess the earth has sometimes cropped out here and there during the past few years, but this is the first instance on record where a religious denomination has indicated a desire in that direction and pursued it with a relentless persistency as studied as it is shameful.

In its complaint in the circuit court of Benton county, *that* church alleges, among other things, that it has been injured by the denial of State aid, in that its usefulness in spreading the "Christian religion" has been impaired. That is in terms an admission by that church that a sum not far below \$100,000 has been drawn from the State treasury for sectarian purposes, in direct violation of the State constitution and of the law of congress making the original land grant for the support of the agricultural college. It is plainly the duty of the State now boldly to come to the rescue of the agricultural college and assert its right in the matter, or, in order to pursue exact impartiality, expend a few

hundred thousand dollars in support of other denominations for the purpose of spreading the "Christian religion."

If the State cannot afford to be just as between the State agricultural college and the "Methodist Church South," it at least should pursue a course that will show no partiality as between churches. There can be no mistake about this whatever.

During the twenty years the Methodist Church South has been managing the agricultural college, so little has been taught or accomplished that was of perpetual benefit to the farmers, that the agricultural community has come to regard the institution as little more than a farce. It has, in fact, differed little, if any, from any other school in which the higher branches of education were taught. Students having received no practical instruction concerning agricultural matters, naturally drifted from the farm as would a graduate of a law school. Indeed, it is called to mind now, that a few years ago the students of the agricultural college were required, in order to qualify themselves for a full understanding of farm work, to graduate in "kinetics" and "kinematics," a species of stock not grown in the civilized world, perhaps outside of the Sandwich Islands. It was in those days that the prejudice arose among the farmers against the agricultural college, that years of an improved course of study will but slowly eradicate.

It is the great desire of this committee, however, to impress upon this body, the fact that all this is changed, and that every effort of the present board and faculty is bent towards making the college a means of imparting useful and practical knowledge to the farmers of Oregon.

For the purpose of assuring success in this most important branch of the subject, the Federal Government has again kindly come to our rescue and made an annual appropriation of \$15,000 to be used for experimental purposes.

An argument in support of the great importance of such an undertaking to the farmers of Oregon ought to be, and this committee assumes is wholly unnecessary. Perhaps there is not a farmer in Oregon who has not often felt the great necessity of making experiments in the various branches of his vocation, but has been prevented from doing so by his limited means, or other causes beyond his control. Success in most branches of agriculture often depends on intelligent experiments, which few farmers have neither the time nor means to pursue. It is to meet this long felt want that the General Government has made ample provisions for an indefinite period of time, save and except the land on which to perform them.

Surely after the people of Benton county on the one hand, and the General Government on the other, are insisting that the great

agricultural State of Oregon shall do something for itself in a line of work that interests and helps its greatest industry, and offer to bear the greater share of the pecuniary burden, the State itself cannot afford to be either niggardly or hesitating in the matter. If the State will not help itself when every outside aid has been extended, then the farmers may well abandon all hope of friendly legislation on a subject affecting them individually and as a class.

The objection heretofore urged against the agricultural college, that its course of study was wholly impracticable, was undoubtedly well formed, but such objection has been entirely expelled, first, by the reorganization and enlargement of the board and faculty which is now deeply in earnest and in hearty sympathy with the practical farmers, and second, by the annual appropriation of \$15,000 by the General Government to bear the expense of supporting experimental stations.

The committee assumes that further argument is entirely unnecessary, with a legislature composed largely of farmers, to justify a recommendation of the purchase of a farm of 200 acres of land, upon which to establish an experimental station, in accordance with the provision of the "Hatch Act."

Such a farm can be obtained, near enough to the building and land donated already, for all practical purposes, for the sum of \$65.00 per acre. This land can be purchased for this sum any time before March 1, next, and a clear title given to the State. Your committee heartily recommend an appropriation sufficiently large to purchase this land, and an additional sum of \$5,000 with which to construct a dormitory for the use of students and faculty. The regents of the college ask for a sum aggregating nearly \$40,000, and while your committee are of the opinion that such a sum is necessary and just, it is thought best to keep within bounds to which no objection can be reasonably urged.

The object of the "Hatch Act" is to establish experimental stations in different portions of the State in order to illustrate the capacity of our great variety of soil, climate and other features characteristic of agriculture, and these provisions should be vigorously supported by legislative aid as fast as circumstances will permit. The present institution is worthy of all support, and your committee cannot too highly eulogize its board and faculty, nor its undoubted desire to assist the farmers of the State, and its certain ability to do so.

In conclusion, your committee desires to say that, in its opinion, suitable provision should be made at no distant day for a complete observance of the objects of the "Hatch Act" by establishing branch experimental stations in Eastern and Southern Oregon. The expenses to be incurred in these matters has been mostly met by the

General Government, and the advantages to be thus derived should be enjoyed by all portions of the State alike as fast as they can be reached. It would not, in our opinion, be good policy to further provide for the improvement of the property now owned by the State and claimed by the "Methodist Church South," however unjust that claim undoubtedly is. That the suit now pending can result other than favorably to the State, no one can reasonably anticipate, because certainly a State court could never transfer an irreducible fund given to the State by the General Government in trust, for a specific purpose, to a sectarian church for the confessed purpose of "spreading the Christian religion."

But the purchase of a farm on which to carry out the provisions of the "Hatch Act" is another question, and your committee cheerfully recommend the appropriation heretofore mentioned as a great stride toward a proper development of our great agricultural interests.

Respectfully submitted,

REPORT.

SENATE CHAMBER,
SALEM, Oregon,
January 31, 1889. }

Mr. President:

Your committee on ways and means, to whom was referred senate resolution No. 18, beg leave to report as follows:

That in the early part of his term (the date of which is not at hand) Governor Thayer appointed Capt. John Mullan as special agent to represent the State of Oregon before the department at Washington, D. C., in the interests of the swamp land business.

That on the 7th day of August, 1882, he was appointed by Governor Thayer as agent for the State to file abstracts, statements, etc., with the secretary of the treasury, showing the amount of such claims as the State of Oregon had against the United States for moneys expended in repelling invasions and suppressing Indian hostilities.

That on the 20th day of February, 1883, he was appointed by Governor Z. F. Moody as agent and attorney for the State to repre-

sent the interest of the State before the proper authorities of the United States at Washington, D. C., for the purpose of having adjusted the States and Territories under the Act of congress approved August 6, 1861.

In letters from the executive office dated March 30, 1883, and July 24, 1883, he was recognized as such agent for the State.

In a letter written by Governor Moody under date of February 13, 1884, he was recognized as an agent attending to swamp land business before the department.

We can find no mention of terms or duration of appointment whatever in the executive department.

On the 30th day of March, 1883, Governor Moody addressed a letter to Captain Mullan acknowledging the receipt of two drafts containing in the aggregate sixty-three thousand two hundred and forty-one dollars and twenty-eight cents, collected by Captain Mullan on the State's share of expenses incurred in the suppression of the Modoc war. For such service Captain Mullan had retained ten per cent for collection, which ten per cent Governor Moody immediately instructed him to forward at once, at the same time acknowledging the importance of his services to the State, but claiming that this manner of payment was entirely unauthorized by law. Governor Moody at this time informed him that he would take pleasure in presenting his claim for services rendered to the legislative assembly for its action.

To the Honorable the Congress of the United States:

Your memorialists, the legislative assembly of the State of Oregon, most respectfully represents:

First—That the Territories of the United States abound in great mineral wealth.

Second—That the developments of the mines of said Territories require the investment of large sums of money, and when so developed they greatly contribute to the welfare and prosperity of the whole country.

Third—That large sums of money from abroad have been invested in mining for the precious metals during the early stages of the mining industry, and your memorialists have reason to believe that additional large sums of such foreign capital would be invested in such mining industries were the restriction now imposed by law against such investment removed.

Your memorialists therefore pray your honorable body to amend the "Act to restrict the ownership of real estate in the Territories to American citizens," etc., approved March 3, 1887, so that any and all persons, irrespective of nationality, may possess and own mining property in stocks without any restriction whatever.

VETO MESSAGE.

To the Honorable, the Senate of the State of Oregon:

I herewith return senate bill No. 17, with my dissent.

This is a bill amendatory of an Act approved November 25, 1885, which Act provided for the issuance by the water commissioners of the city of Portland of a certain amount of bonds for the purpose of providing water works for the city, and which Act further provided that "all bonds issued and disposed of under this Act shall be exempt from taxation either by the State or any county or municipal corporation therein." Senate bill No. 17 provides for the issuance by the water committee of \$1,500,000 more of bonds, "which bonds shall in all particulars, except as in this Act otherwise specially provided, conform to and have the same effect as those authorized by said Act of 1885, and shall be entitled

to the same privileges and exemption." This bill therefore provides that the water committee of the city of Portland may issue \$1,500,000 of water bonds, which bonds "shall be exempt from taxation either by the State or any county or municipal corporation therein."

Section 1, article IX, of the constitution of the State of Oregon, provides as follows: "The legislative assembly shall provide by law for uniform and equal rate of assessment and taxation; and shall prescribe such regulations as shall secure a just valuation of taxation for all property, both real and personal, excepting such only for municipal, educational, literary, scientific, religious and charitable purposes as may be specially exempted by law." Under the provision of this section of our State constitution the legislative assembly can exempt municipal property from taxation, but there is no provision by which it can both exempt such property and the money or bonds with which it has been purchased.

That instrument provides for the exemption of municipal property from being taxed, but it does not anywhere provide that twice the amount of that property shall be exempted.

These bonds after they have been paid out by the committee for the purchase of municipal property will pass, of course, into private hands, and become private property; and the legislature of Oregon, under our State constitution, can no more exempt these certain bonds, which may be owned by bankers in the city of Portland, from taxation, than it can exempt certain farms that are owned by farmers in Polk county from taxation.

They are private property and they can be exempt from taxation no more than can any and all other private property.

The section of the constitution before referred to provides "for uniform and equal rates of assessment and taxation." How can there be an equal rate of taxation when one person has \$10,000 in water bonds that pay no tax and his neighbor \$10,000 in real estate that is subject to full taxation, State county, and municipal?

The fact that these bonds, after they have passed into the hands of private parties, are in no sense of the word municipal property, but that they are private property, is so plain and self-evident as to need no argumentation whatever. And the further fact that, being private property, they cannot be exempt from taxation is as equally clear and conclusive.

The constitution of Oregon as above quoted enjoins upon the legislative assembly that "it shall prescribe such regulation as shall secure a just valuation for taxation of all property, both real and personal, excepting such only for municipal, educational, literary, scientific, religious and charitable purposes as may be specially

exempted by law," and yet it is now proposed by the legislative assembly in this bill, in defiance of the above provision, that no valuation for taxation of a certain species of personal property shall be made, but that such property shall be exempt even when it has passed into private hands and becomes private property to all intents and purposes. The legislature could as well provide that 1,500,000 silver dollars paid out by the water committee for municipal property, and which have passed into private hands, should be exempt from taxation, as it could provide that that amount of bonds so paid out after having passed into private hands and after having become private property, could be exempted from taxation. One proposition is as reasonable as the other, and both are unconstitutional.

Some years ago the city of Portland was the possessor of a certain building and lot on Morrison street which was used by the fire department. Subsequently the lot was sold at public outcry by the city and was purchased by a private citizen and became private property. While it was the property of the city it was exempted by law from taxation because it was municipal property and used for municipal purposes. Did this right of exemption from taxation adhere to that lot after it had ceased to be used for municipal purposes and had become private property? No one will assert it. And in the case of these water bonds, can this right of exemption from taxation adhere to them after they have ceased to be municipal property and have become private property, any more than it could in the case of the real property above mentioned? No one can assert it.

If this bill should become a law, and this issue of \$1,500,000 of water bonds should be made, and if such bonds shall be judiciously expended by the committee, the city of Portland will have a pipe line from Bull Run to that city of the value of \$1,500,000. This, by law, will be exempted from taxation. By the operation of this bill, however, \$1,500,000 more in the shape of these water bonds, which will have passed into the hands of private parties, will also be exempted from taxation. It must be again repeated that while our constitution exempts municipal property from taxation, it does not provide for the exemption of twice the amount of such property.

It is and should be the aim of every free and just government to accord to its people "equal and exact justice to all, special privileges to none." Our constitution declares that "all taxation shall be equal and uniform," of all "property, both real and personal," in the possession of any and all private citizens, and yet the complaint is borne to us from every quarter of the State that under our present system of assessment the wealthy classes of the community are

securing for themselves, in defiance of law, an immunity from their share of the public burdens. And will this legislative assembly, instead of affording relief and protection against this great injustice, still further aggravate that crying abuse by creating, in defiance of the fundamental law of the land, by positive statutory enactment, a species of property which in private ownership will be granted the undue privilege over any other species of property of total exemption from taxation? Shall the cry of the people of this State for justice in this regard be answered alone by the infliction of a still greater injustice?

No private property under our State constitution can be exempted from taxation, and this bill, which proposes such exemption, is plainly unconstitutional.

I veto the bill.

SYLVESTER PENNOYER,
Governor.

On motion of Mr. Tongue, it was ordered that 250 copies of the Governor's veto message be printed.

Mr. Carson moved that the consideration of the Governor's veto message to senate bill No. 17 be made the special order for to-morrow at 2 o'clock P. M., and that the State Printer proceed at once to print the same.

Mr. Carson, chairman of the joint committee to examine into the management of the State university at Eugene city, pursuant to house concurrent resolution No. 9, submitted the following:

REPORT.

SALEM, Oregon, }
February 7, 1889. }

To the Honorable the Legislative Assembly of the State of Oregon :

We, your committee appointed under house concurrent resolution No. 9, do most respectfully submit:

That in accordance with said resolution your committee spent the entire day and evening on February 1st, in a careful and considerate examination of the various departments and workings of the university of Oregon.

We desire at this time and in this manner to publicly express our appreciation of the kind, courteous and frank way in which the faculty and officers of the university assisted us in the labors of our examinations. To them and their kindness we are indebted for much of the valuable information we are enabled to furnish regarding one of the most worthy and creditable institutions of the State.

We critically examined each department and with special reference to each and every one, we are proud to report that we found them a model of neatness, complete in arrangement and perfect in order. We are especially impressed with the intent interest with which both faculty and students are imbued in the great educational work of the State, and can realize and report that the university of Oregon, in theory, practice and result, is an institution of learning of which this State and each individual citizen may well be proud. The results of its work are being made known, and without inquiry the knowledge is broadcast that the graduates of the university of Oregon stand second to those of no other institution on the coast.

Your committee visited the several class recitations, and can testify to the thoroughness of the work and the high order of scholarship exhibited.

We are pleased to note and report to your honorable body that the present school year is an exceedingly prosperous one, the records showing an increase of fifty-six in the collegiate department over last year, or an increase of a little more than 44 per cent. This fact

in itself bespeaks great credit for the management, and, when taken in connection with the growing reputation of the institution for its diligence and thoroughness in the preparation and completion of its graduates, assures us that we cannot too strongly urge upon the State the necessity of lending such encouragement and assistance as will enable the management to complete and carry out the high grade of educational facilities for which the school was intended. Your committee were impressed by the earnestness and dignified bearing of the students—young men and women gathered from every portion of the State.

We recognize in the university of Oregon a school calculated to mature and fit the minds of the young men and women of our State with the higher educational attainments of a thorough collegiate course. We recognize in it a college for the completion of an education which will qualify the young men and women of our State to compare and cope with the collegiate graduates of any other State in the Union.

Among the students in attendance we found the following counties represented by scholarships:

Baker county	1
Benton county	4
Clatsop county	4
Coos county	1
Crook county	1
Douglas county	2
Jackson county	4
Klamath county	2
Lake county	3
Lane county	7
Linn county	9
Marion county	10
Morrow county	1
Multnomah county	7
Polk county	5
Umatilla county	1
Union county	1
Wasco county	4
Yamhill county	3
Total	70

These scholarships represent nineteen of the counties of the State.

Over one-half of these scholarships are held by persons who,

without them, would be unable to avail themselves of the opportunities they now enjoy. We are informed that many needy students work for their board, and this class of students, as a rule, stand highest in their classes.

We have made a careful examination of the books and records of the school, and find them kept in a neat and intelligent manner, from which we are enabled to abstract the following facts relating to the students:

We find the whole number of students enrolled since the beginning of the present school year, to-wit, September 17, 1888, to be 183.

The total number enrolled for the term ending December 21, 1888, was 161.

Total number enrolled for the present term, 166, and the number in actual attendance at the present time is 162.

Of this number, 47 are college students, 3 are post graduate students from California, and 28 are preparatory students taking college studies; making the total doing college work, 78; leaving 84 as the number of preparatory students.

The benefits of the school we find to extend to all parts of the State, as is evidenced by the fact that of the total number of students enrolled, less than one-fifth reside in Lane county, and of those residing there a large number have moved there to receive the benefits of the university during the school year.

In addition to the number of students already mentioned, we refer you to the report of the president of the board of regents, setting forth the statistics of the law and medical departments of the school, which are in a flourishing and satisfactory condition as to instructors and students. These two departments are maintained at Portland, because of the very superior facilities there offered.

A most important feature of our investigation suggests itself in the fact that the poor and actually needy students of the university are those whom the records show to be the highest in deportment and standing. The young men and women who avail themselves of State scholarships, and from their own labor earn a sustenance while in attendance upon the school, are the students who go out as graduates, to the honor of our State. With this fact in view, your committee has given much attention to the subject of free scholarships.

We find, on examination of the rules governing similar institutions in other States, that the policy of giving free tuition has been generally adopted. Among the States which have adopted this policy are Arkansas, California, Colorado, Georgia, Illinois, Indiana, Kansas, Louisiana, Michigan, Minnesota, Mississippi, Missouri,

Nebraska, Ohio, Pennsylvania, Virginia and Wisconsin, while the State of Iowa charges an annual fee of \$25 only. In behalf of the important educational interests of the State, we recommend a liberal policy on the part of our own State towards our university. The experience of the other States of the Union fully indicates that the safest plan and the higher safeguard is to put higher education within the reach of the poor, because we cannot afford to endow the rich alone with the power incident to trained and cultivated minds.

Following this policy, and in the line of these older States, your committee, after mature consideration, are fully convinced that the best educational interests of our State demand that the university of Oregon be placed as nearly as possible on a free basis, thereby placing a collegiate education within the reach of the poor as well as the rich. We are convinced that this may be done with comparatively little additional taxation or burden upon the State. The present assessment of one-tenth of one mill raises an annual revenue of about \$8,900. Increasing this revenue to one-seventh of a mill, or about one twenty-fourth more than at present, would raise an additional revenue of \$3,600, or a total annual income of about \$12,500, which, we are informed, would, together with other resources of the university, be sufficient, under economic management, to place the school upon the basis mentioned.

We would recommend that all applicants for admission be required to pass the same examination, and in the same manner as is required under the present system.

We have examined house bill No. 104, introduced by Mr. Condon, and find that our views and ideas are as fully expressed in said bill as we might express them in a bill prepared by us, and in the educational interests of the State we recommend its enactment.

J. H. RALEY,

COMMUNICATION FROM THE SECRETARY OF STATE.

OFFICE OF THE SECRETARY OF STATE,
SALEM, Oregon,
February 13, 1887. }

To the Honorable, the Senate of the Legislative Assembly of the State of Oregon:

GENTLEMEN: I have the honor herewith to transmit to the senate senate bill No. 37 of the fourteenth biennial session of the legislative assembly of the State of Oregon, which was passed at said session of the legislature February 18, 1887, and was filed in this office with the objections of the Governor thereto February 23, 1887.

I have the honor to be, very respectfully,

Your obedient servant,

GEO. W. McBRIDE,
Secretary of State.

VETO MESSAGE OF THE GOVERNOR.

STATE OF OREGON,
EXECUTIVE DEPARTMENT,
SALEM, February 23, 1889. }

To the Honorable, the Senate of the State of Oregon:

I herewith return senate bill No. 31 with my dissent. This bill creates a new office, that of supreme court reporter. Under the

existing law the clerk of the supreme court is court reporter. The duties of the clerk befit him to be the reporter of the court, and there can be no reasonable doubt that the emoluments of the office are amply sufficient to fully recompense him for its now confined duties.

This bill provides that as compensation to the reporter "the Public Printer shall print six hundred volumes of each report, three hundred of which shall be delivered to the official reporter as his property, which he shall not sell at a greater price than five dollars per volume." This bill therefore not only creates a new office, but adds to the emoluments which the clerk of the supreme court is entitled to for services now imposed, the sum of fifteen hundred dollars. There has been no complaint that such clerk is underpaid for his services, it being the general impression that the perquisites of his office are about equal to the combined salaries of the three judges of that court; and therefore there is no valid reason why the people of this State should be taxed to enhance a compensation amply sufficient. This bill also provides for the "publication of the decisions of the supreme court by the Public Printer," but without this bill the decisions will have to be so published, inasmuch as it is the plain intent of the constitution that such printer "shall perform all public printing for the State," and inasmuch as it is also the declared will of the legislature, as expressed in house joint resolution No. 12, "that all printing for any State department, executive, administrative, legislative or judicial, shall be done by the State Printer."

The legislature of Oregon during the fourteenth session, inclusive of stock inspectors and the various boards of commissioners, and exclusive of court reporter and officers for the new counties, created forty new offices not heretofore known in this State, all of whom directly or indirectly receive remuneration for their services. A stop ought to be made somewhere, and, in my judgment, it ought to be made in regard to the creation of this office. Sacred writ informs us that the laborer is worthy of his hire, but it is nowhere claimed that the laborer is worthy of two hires, or that when the emoluments of an office are becoming too great for one person the proper thing to do is to create another office and increase the emoluments.

I therefore file this bill with my disapproval thereof in the office of the Secretary of State, this, the 23d day of February, 1887.

First, in the house journal of 1882, in His Excellency, Governor Thayer's, message, pages 38 and 39, he states thus:

I engaged the services of H. C. Perkins to view the lands in the field and Mr. P. L. Willis to attend to the other labor. Besides, the department, at my request, had sent an agent to view the lands included in the lists forwarded to the office of the commissioner of the general land office, who was instructed to co-operate with an agent appointed on the part of the State, and I appointed as such agent Dr. J. C. Whiteaker. In addition to this, I appointed Captain John Mullan as an agent to attend to and urge speedy action upon the part of the department in the examination and certifying of the lists forwarded by the attorney-general. These several matters have entailed some expense, but it was the only course to follow, and I assumed the responsibility to adopt it and to push forward the work as fast as it could be done with the complicated machinery provided for its management.

REPORT.

HOUSE OF REPRESENTATIVES, }
SALEM, Oregon, }
January 25, 1887. }

Mr. Speaker :

Your special committee, appointed under house resolution No. 35, beg leave to report that they have examined into the matter of the condition of senate joint resolution No. 3, printed upon pages 128 and 129 of the session laws of the special session of November, 1885, and find as follows:

That the journals of the said special session show that said senate joint resolution No. 3 passed both the senate and the house; that it was received by the Secretary of State at the close of the session in the condition in which it appears in the volume containing the laws of the said special session; that having so passed the house and senate, the Secretary of State deemed it his duty, as important interests were involved, to publish said joint resolution in the appendix to the special session laws, and did so; that by reason of the said joint resolution not being properly authenticated by the signatures of the President of the Senate or the Speaker of the House, the Secretary of State declined to recognize its authority and refused to audit Captain Mullan's accounts thereunder; that the accounts of Captain Mullan are on file in the office of the Secretary of State and not audited for want of sufficient authority.

We further find that no sum of money has been paid from the State treasury to Capt. John Mullan, or warrants drawn in his favor for any sum whatever under or by authority of said joint resolution No. 3.

THOMAS PAULSEN,
L. BILYEU.

On motion of Mr. Daly, the report was adopted.

February 3, 1887, by consent, Mr. Daly introduced house resolution No. 50, as follows:

HOUSE RESOLUTION NO. 50.

WHEREAS, Senate joint resolution No. 3 of special session of the legislature of 1885 regarding the accounts of Captain John Mullan

was not signed by the President of the Senate nor the Speaker of the House as required by the constitution to make it valid; and,

WHEREAS, The Hon. R. P. Earhart, ex-Secretary of State for the State of Oregon, has, in answer of inquiry made of him by the committee appointed under house resolution No. 35, made answer that there are a number of claims by said Captain John Mullan against the State of Oregon now in the office of the Secretary of State, which said Hon. R. P. Earhart when acting as said Secretary refused to audit and allow; therefore, be it

Resolved, That the attempt to appoint said Captain John Mullan as State agent shall stand for naught, and any and all accounts made against the State by said Capt. John Mullan by virtue of said resolution shall not be audited or paid by the Secretary of State or any other officer of the State; that all resolutions or parts of resolutions inconsistent with this resolution are hereby repealed.

Referred to the committee on claims.

House Journal 1887, page 309.

HOUSE RESOLUTION NO. 51.

WHEREAS, Claims for a large amount against the State by John Mullan are now on file in the office of the Secretary of State; and,

WHEREAS, There is not now, if there ever was, a necessity to employ said Mullan as agent for the State; therefore, be it

Resolved, That the Secretary of State is hereby requested to furnish the house with information stating the amount of such claims, the character of such service or services for which compensation is demanded and by whom and under whose authority said Mullan acted.

On motion of Mr. Paulsen, the resolution was adopted.

MESSAGE FROM THE SECRETARY OF STATE.

OFFICE OF THE SECRETARY OF STATE, }
SALEM, Oregon, }
February 10, 1887. }

To the Honorable, the House of Representatives of the Legislative Assembly of the State of Oregon—

GENTLEMEN: In compliance with house resolution No. 51, requesting me to furnish the house with information stating the amount of claims of John Mullan against the State, the character of

the services for which such compensation is demanded and by whose authority said Mullan acted, I have the honor to state that the claims filed by Captain John Mullan since the thirteenth biennial session of the legislative assembly are as follows:

1. A claim for \$7,026.80 for services rendered April 26, 1883, in collecting \$70,268.08 from the United States on account of Modoc Indian war.

2. A claim for \$527 for services rendered October 4, 1884, in collecting \$5,271.10 from the United States.

The same claims for said services were filed December 12, 1884, and were considered by committees on ways and means at the last regular session of the legislative assembly, together with a claim for \$2,463.05 for securing certification of school and other lands to the State and for salary as land agent from September, 1882, to January 1, 1885.

In the appropriation bill passed at that session there appeared the following item: "For pay of John Mullan for services as State agent at Washington, D. C., in securing certification and listing of lands, the collection of claims of the State of Oregon against the Federal Government from September 1, 1882, to January 1, 1885, \$2,500."

There is also on file a claim for \$2,118.22 for services as land agent and for securing certification of lands since January 1, 1885.

All of the above claims have been referred to and are now being considered by the committees on ways and means.

Capt. Mullan was appointed as an agent of the State by His Excellency Governor W. W. Thayer, as will be seen by reference to pages 38 and 39 of the house journal of 1882.

A letter written by Captain Mullan and endorsed by Governor Thayer is printed on pages 336, 337 and 338 of the house journal of 1882, and contains a statement of the terms upon which he was employed and the character of the service.

Captain Mullan has ever since said appointment acted as land agent of the State at Washington.

Page 15 of the report of the Secretary of State for 1885 contains a statement of the employment of Captain Mullan to represent the claim of the State against the United States for reimbursement of expenses incurred during the war of the rebellion, amounting to \$369,454.19.

The terms of his employment were such that upon the final adjustment of said claim Captain Mullan shall receive such sum for his services as the legislative assembly shall decide to be just.

The Secretary of State in the report above referred to says: "It is due to Captain John Mullan, the agent of the State in the prose-

cution of these claims, to say that he has rendered very material service in securing this payment by furnishing information and preparing and distributing legal arguments favorably affecting subsequent legislation by appearing before the committees appointed by congress to consider and report on the subject and before the departments entrusted with the duty of auditing the claims and by supporting the efforts of our senators and representatives, who also have exerted themselves to the same end."

I have the honor to remain, very respectfully,

Your obedient servant,

GEO. W. McBRIDE.

Therefore, we your present committee on claims find that the claim of the State of Oregon against the United States for \$70,268.08, being for moneys expended in suppressing Modoc Indian hostilities during the Modoc war in 1872 and 1873 was admitted and certified on the 5th day of March, 1883.

Also that the claim of \$5,271.10, being 15 per cent of \$35,140.67, the cost of the assumption and collection by the State of Oregon of her quota of the direct war tax levied under the Act of congress of August 5, 1861, was settled by warrant drawn September 19, 1884.

We find that the appropriation of \$2,500 made by the legislative assembly of 1885 was for the pay of John Mullan for services as State agent at Washington, D. C., in securing certification and listing of lands, *the collection of claims of the State of Oregon against the Federal Government from September 1, 1882, to January 1, 1885*, and so would include the claims for \$7,026.80 and for \$527.11 presented by the said Mullan to this legislative assembly.

We find further that on April 1, 1885, the Secretary of State drew warrant No. 1071, for \$2,500, in favor of John Mullan, and that on April 21, 1885, the State Treasurer paid the said warrant.

SUMMARY.

From the above we find that Captain John Mullan was appointed by His Excellency, Governor Thayer, without any definite contract, but with the understanding that the said Mullan was to receive such compensation as the legislative assembly would allow.

We find further that, at the special session of the legislative assembly of the State of Oregon, held in November, 1885, there was a resolution introduced to confirm the appointment of the said Mullan, but the said resolution failed to become a law, and that there is no record showing that the said appointment was ever confirmed or ratified by the legislative assembly.

We find further that, while the legislative assembly have never confirmed or ratified the said appointment, they appear to have recognized that his services were of value to the State, and so did, at the regular session of the said assembly, held in the year 1882, make an appropriation of \$3,762 for pay for said services, and did, at the regular session of said assembly, held in the year 1885, make a further appropriation of \$2,500 for pay for certification of lands from the United States to the State of Oregon, and for the collection of claims of the State of Oregon against the Federal Government from September 1, 1882, to January 1, 1885, making a total sum of \$6,262 which the said Mullan has received for his services to date. We find, further, that the two appropriations above named cover all of the claims presented by the said Mullan to this legislative assembly, except item 3 and item 4.

As there is no record showing that the said Mullan is or ever was employed as attorney or agent for the State at a salary or fixed compensation, it is the opinion of the committee that the said item 4 of \$2,250.50 should not be allowed.

Inasmuch as the procuring of the certification of land named in item 3 was and is of benefit to the State, we would recommend the payment of the said claim of \$118.22 as payment in full of all demands and claims to date.

Mr. Looney, chairman of the special committee to examine into the affairs of the insane asylum, pursuant to house concurrent resolution No. 3, submitted the following:

REPORT.

SENATE CHAMBER,
SALEM, Oregon,
February 13, 1889. }

*To the Senate and House of Representatives of the Legislative Assembly
of the State of Oregon:*

GENTLEMEN: The joint committee appointed under house concurrent resolution No. 3, to investigate the management and condition of the Oregon State insane asylum, report that the duty assigned to the committee has been discharged, and we find that the patients are supplied with all things necessary for their comfort as far as the management is concerned.

The food furnished the inmates is wholesome and abundant.

The greatest attention is paid to their personal cleanliness.

The wards are clean and neat, with as perfect sanitary and hygiene surroundings as possible under all the circumstances. We were pleased to notice the ample provisions made for their mental diversion so important to this class of patients, such as chapel exercises, music, dancing, etc.

The treatment of the patients by the attendants is courteous and humane. The books and accounts are neatly and accurately kept. There are at the present time 540 patients, and increasing at the rate of 80 per year. If this increase holds good in the future as in the past it will only be a very short time before the institution will be full and overflowing. We therefore recommend the erection of a new wing. We also believe that there should be a building erected for the special treatment of insane persons. The land now owned by the State susceptible of agriculture amounts to only 92½ acres, and from this small amount there has been returned to the State in the last two years the sum of twenty-six thousand dollars in the way of vegetables, etc.

And we recommend that the legislature provide for the purchase of more land, and we advise the selling of a tract of land belonging to the State lying some two miles from the asylum, for the reason that it is too far away to be of very much utility to the institution. The furnaces now in use for the purposes of heating the building are a source of great and constant danger to the inmates, and no false notion of economy should prevent the legislature from making ample provision for their perfect safety and welfare. And we therefore recommend that said furnaces be replaced by steam heating apparatus; not only will the safety of the inmates be increased, but there will be a saving to the State of some three thousand dollars per annum. There is also great need of fire plugs to connect directly with the pumps, so that in case of fire the full force of the pump would be directly on the fire.

The library should not be neglected, as it is a source of great benefit to the patients.

The general expenses of the institution for the next two years must be provided for at this time.

We therefore ask and recommend the following appropriation for the purposes therein named :

For building new wings and furniture.....	\$ 40,000
For replacing heating furniture with steam heating apparatus	150,000
For fire plugs.....	3,000
For wainscoting and painting.....	2,000
For a building for special treatment	15,000
For general expenses.....	150,000
For electric light plant.....	8,000
For conveying indigents home.....	300
For library fund.....	300

We also recommend the appropriation of \$20,000 for the purchase of land, to be expended by the board of trustees provided said board can obtain the land at such price as they deem reasonable.

Total amount.....	\$253,600
-------------------	-----------

Before concluding this report we will say that Dr. Harry Lane, superintendent, extended to your committee every courtesy, and we have the utmost confidence in his integrity and ability as a superintendent.

Mr. Westacott, the commissary and clerk, extended to the clerk of this committee every facility for examining the books, papers and vouchers, all of which he found in perfect order and correctly kept.

The following stock are owned and kept at the asylum:

26 cows, worth	\$ 780
2 bulls, worth	1,000
13 calves, worth	130
5 Holstein heifers	1,000
7 horses	1,050
62 hogs	620
67 pigs	335
8,000 bushels potatoes	2,000
Stock in store	16,000
Farming implements	300
Total	\$22,315

We find by reference to the records of Marion county that on the 24th day of December, A. D. 1883, A. Bush conveyed title by warrantee deed "unto the board of directors of the Oregon school for the education of deaf mutes and to their successors and assigns forever" "to all of block number 24 in the University addition to the city of Salem." Part of the lands were donated to the State for the use and purpose above mentioned, and no part of the funds used in purchasing any of the lands for the use of said school was appropriated by the State, but title to all real estate is vested in the board

of directors under provisions of section 6 of an Act entitled an Act to create and organize a school for deaf mutes, approved October 25, 1880.

The grounds have been much improved by labor of the pupils without cost to the State, and are kept neatly, thus giving the premises a cheerful and home-like appearance. Besides improving and beautifying the grounds there has been erected a school building sufficiently large to accommodate at least forty pupils, a separate building (each) for the boy's and girl's dormitory and industrial building. Your committee personally inspected these premises thoroughly in every department and find that the general management is efficient and economical, that the method of book-keeping is accurate and so simple as to be readily understood by any one of ordinary business qualifications, and that every department is kept faultlessly clean, and the care bestowed for neatness and comfort of pupils is excellent in every respect.

The task of imparting instructions to deaf mutes is a difficult one, requiring teachers peculiarly fitted for the work they have in charge, and the State is fortunate in having secured the services of Mr. Benj. Irving, who is ably assisted by Elizabeth D. Kelsay, in the patient labor of training these unfortunate wards of the State.

The appropriation of \$1,000 by the last legislature for industrial purposes was expended in the erection of an industrial building, the basement of which is now used for a printing office, where pupils are instructed in the art of printing. "The Sign," a monthly paper, is issued; lessons are printed for the exercises in school, which materially aid and assist in training the pupil in the use of language. The value of industrial training cannot be over estimated, and your committee are of the opinion that the printing office is a valuable addition as an industrial branch of the school, and would recommend that the State Printer do the press work for their paper. Other branches of the industrial department of the school, which need more than a passing notice, are the carpenter shop and broom factory. In the former the pupils make all their tables, desks and cupboards and should be supplied with suitable tools to work with. In the broom shop we examined samples of their work and find that while this branch of industry is in its infancy, good brooms are manufactured here, and it only requires that a market be established to make this enterprise more than self-sustaining. And in this connection would state that we are informed that other institutions of the State consume about fifty dozen brooms per year, which could be supplied from this source at a figure much less than is now paid.

In conclusion, your committee would recommend that the esti-

mates of the Rev. P. S. Knight, superintendent of the school for deaf mutes, in his ninth biennial report for the two years beginning January 1, 1887, for an appropriation of \$16,000 for the purposes therein set forth, be adopted, and we cordially approve the indorsement of the executive committee of the board of directors.

All of which is respectfully submitted.

CHARLES HILTON,
Senate Joint Committee.

I fully endorse the above and foregoing report as to the condition, workings and management of the deaf mute school, but do not concur in the recommendation as to the amount of appropriation, believing that \$14,000 to be sufficient for the support of said school for the time specified and the necessary improvements.

Mr. Mackay, chairman on the part of the senate of the committee to examine into the affairs of the Oregon State penitentiary, pursuant to house concurrent resolution No. 10, submitted the following:

REPORT.

SENATE CHAMBER,
SALEM, Oregon,
February 15, 1889.)

To the Honorable Legislative Assembly of the State of Oregon:

We, your committee to whom was referred house concurrent resolution No. 10, to examine and report upon the condition and management of the penitentiary, respectfully submit the following:

We have examined the books and accounts of the aforesaid institution for the whole term included in the superintendent's biennial report, together with vouchers drawn and all items in the invoice bills for which said vouchers were issued, and find them corresponding.

We recommend that the books of the institution be kept hereafter more in uniform with those of the Secretary of State, as under the present system and manner they are almost unintelligible.

We find that the disbursements for the several improvements have been carefully and economically expended, the work completed being ornamental and substantial.

Upon investigation of the requirements for the ensuing term we would respectfully submit the following recommendations:

First—That two (2) arc electric lamps be placed as follows: One in the kitchen and the other in the main office. For this purpose \$200 should be appropriated.

Second—That there is urgent need of a span of horses for use

at the penitentiary, those now in the stables being aged and uncertain for service. Appropriation, \$300.

Third—The new iron fence just completed requires painting, and the brick foundation for the same should be cemented. Appropriation, \$200.

Fourth—That the south wing of the prison building is sadly in need of protection, and we suggest that it be cemented. Appropriation, \$250.

Fifth—We further recommend that the tanks at present on the roof of the main building be removed, and that suitable water towers be erected adjacent to the prison. For this purpose an appropriation of \$3,500 is needed.

Sixth—We deem it absolutely necessary that better means of ventilation be introduced, and that there be appropriated for the work \$800.

Seventh—The tin roof of the main building is in bad condition, caused by the overflow of water from the present system of water tanks, and should be repaired; for which work \$500 is required.

Eighth—Referring to the interrogation of the superintendents concerning the obligation of the State to furnish the wood for the heating of the foundry shops, the committee would report that they have examined the contract and find nothing therein which requires the State to furnish the fuel with which to heat the shops.

Ninth—We also recommend that an appropriation be made for the salary of a commissarian, as such an office is essentially a safeguard against improperly auditing of supply accounts, and that he be required to keep a complete record of all property and produce which passes through his hands, and verify the same quarterly before the Secretary of State.

Tenth—There being much machinery now on the penitentiary ground, we urgently recommend that an efficient engineer and plumber be employed to take charge of the same. We recommend therefor \$1,800.

Eleventh—Referring to the superintendent's request for an appropriation with which to place new floors in the foundry shops, we recommend that the same be allowed. Believing that the sanitary condition of the building would be improved by the removal of the decayed wooden floors and that concrete work would be more durable, we therefore recommend that such a floor be placed in the shops, and an appropriation be made therefor of \$3,500.

Your committee find the property of the State is carefully attended by Superintendent Downing, and the buildings and grounds are in a neat and cleanly condition.

Without segregating the different accounts under the various

persons in charge, a general summary shows the expenditures on account of the Oregon penitentiary for the years 1887 and 1888 to be in excess of those for the corresponding terms of 1885 and 1886.

The following comparison is submitted:

Total appropriation for 1887 and 1888 was	\$68,280 00
Deficit	4,064 64
	<hr/>
	\$72,340 64
By balance of appropriation unexpended	971 70
Total expenses for 1887 and 1888	71,368 94
Total appropriation for 1885 and 1886	\$58,420 00
By balance of appropriation unexpended	2,638 42—55,781 58
	<hr/>
Excess of expenditures for 1887—88 over 1885—86	\$ 15,587 36
The daily average number of convicts for the term 1885 and 1886 was	278.71
Same term 1887 and 1888	259.76
	<hr/>
Greater number of convicts in 1885—86 of	18.95
The average annual expense per convict for 1885—86 was \$	102 56
Same for years 1887—88	133 99
	<hr/>
Increase of 1887—88 over 1885—86	\$ 31 43
Or an increase of over 35 per cent.	

To complete the foregoing comparisons of the summary of accounts, there should be added to the expense excess of 1887 and 1888 the cost of keeping the number of convicts during 1885 and 1886 over the number creating the expense of 1887 and 1888. At the lowest cost per convict that of 1885 and 1886, which was \$102.56 per year, being \$3,887.02.

The foregoing indicates the actual excess in expense for 1887 and 1888 to be \$15,587.36.

Comparatively it has been \$19,474.38 over that of 1885 and 1886, without any apparent satisfactory explanation.

Your committee has recommended an appropriation of \$1,800 for the payment of an adequate salary to a commissarian. We also recommend an increase in the pay of a book-keeper and turnkey. In future this should secure the services of competent persons, and insure to the State intelligible accounting for the use of public funds.

The Governor is required to visit the penitentiary at least four times a year, receiving for the service two hundred dollars annually.

He is the supervising officer, and determines the economic policy of the institution; we suggest that in consideration of the efforts of this committee to provide for a more competent, convenient and correct system of accounting for his inspection, that His Excellency may be able to give the details of the executive administration at the penitentiary, such personal attention as may cause the State a proportionate decrease in expenses.

SALARIES—PENITENTIARY.

We append recommendations as follows:

For salary of superintendent.....	\$ 3,000
For salary of wardens.....	4,200
For pay of teamster	960
For pay of shop guards (four at \$60 per month)	5,760
For pay of bookkeeper and turnkey	1,800
For pay of day chapel guard.....	1,200
For pay of day guards.....	12,000
For salary visiting physician	1,000
For salary principal nightwatchman.....	1,800
For salary principal outside watchman.....	1,200
For salary principal inside watchman.....	960
For purchase firewood	5,000
For salary commissary.....	1,800
For salary engineer and plumber	1,800
For salary assistant nightwatchman	1,560
General expense	33,000

Respectfully submitted,

DONALD MACKAY,

J. H. HAMILTON,

On part of the senate.

JOHN Q. WILSON,

THERON E. FELL.

E. B. GAMBEE,

On part of the house.

On motion of Mr. Mackay, the foregoing report was referred to the committee on ways and means.

By unanimous consent, Mr. Mackay introduced the following resolution:

I herewith return senate bill No. 75 with my dissent. This is a bill for an Act amendatory of the railroad commission law, which was approved February 18, 1887. The amendments proposed in the bill herewith returned, consist simply in the enlargement of the number of the commission, without providing for any enlargement of the powers. It provides, also, that the commission shall be elected by the legislative assembly, instead of being appointed by the Governor, and omits that clause of the law of 1887 which provides that the Governor may remove any commissioner for cause. The board consisting, under the law as it now stands, of two commissioners and a clerk, the compensation of whom amounted to \$7,500 per annum, had not really enough work to do, owing to the prescribed limitation of its powers, to keep one man in healthy, steady employment, and there is no reason why the taxpayers of Oregon should be burdened with the expenditure of \$2,500 more for the employment of another commissioner, who will really have nothing to do but to draw his salary quarterly, when but for this unaccountable benefaction of the legislature of Oregon he might be able to

earn an honest living on a farm or in a workshop. The omission from the bill under consideration of the granting of the power of removal by the Governor is an unwise omission. Under the existing law the Governor removed the two commissioners for the reason that after their attention had been called to the mandatory provision of the law, which required that in their biennial report to the legislative assembly, they should report "particularly what changes in the classification of freight, or what changes in the rates of freight or fares are advisable or necessary," they had failed to comply with such mandatory provision, and had made their report, in which they entirely disregarded that specific mandate of the law. Senate bill No. 75 strips the Governor of the power of removal, and leaves the commissioners free to follow the footsteps of their predecessors, "with the simple power to investigate, make recommendations, and report to the legislature" merely such tables in regard to the railroads as the previous law, approved February 26, 1885, had compelled the various railroads to file in the office of the Secretary of State, thus relieving the entire board and its clerk of all work except the onerous work of drawing their salaries quarterly and riding on free passes all over the State. There is another serious objection to the bill. Under our system of State government, it is the legislative prerogative to make the laws, and it is the executive function to enforce the laws. If, however, the legislature can, as is proposed in this bill, create a commission of its own appointment, to enforce the laws of its own enactment in regard to the railroads of this State, it can create commissions in regard to any and all other matters of State control, and thereby entirely rob, if it so chooses, both the executive and judicial branches of the State government of all their prescribed powers. This usurpation of power by one of the departments of the State government would lead to the practical subversion of our free institutions. Under the law as it now stands, with the powers of the commission defined as it has been by a decision of the supreme court of the State, one commissioner without any clerk would have been all that could possibly find employment, and this bill, which adds to the number of the commission without in the least enlarging its powers, is too much like offering a stone to the people of this State, who have been justly clamoring for bread. I veto the bill.

SYLVESTER PENNOYER,
Governor.

The foregoing message was duly read.

Mr. Cogswell moved that 1,000 copies of the foregoing message be printed and the consideration of the veto message be made the special order for 10 o'clock to-morrow morning.

Which motion was lost.

Mr. Steel moved a call of the senate.

The roll being called, all the Senators were present except Mr. Dawson, who appeared within the bar of the senate.

On motion of Mr. Carson, the further call of the senate was dispensed with.

The veto of the Governor to senate bill No. 75 coming on for consideration, and the question being, "Shall the bill pass notwithstanding the objections and veto of the Governor?" the roll was called and the vote was:

Those voting aye were:

Messrs. Barin, Carson, Chamberlin, Chandler, Dawson, Dimick, Eakin, Fullerton, Gray, Hatch, Hilton, Looney, Mackay, Moore, Norval, Sinclair, Stanley, Steel, Tongue, Wait, Watkins, and Mr. President—22.

Nays—Messrs. Cauthorn, Cogswell, Hamilton, Irvine, Raley, Veatch, Wager and Watts—8.

Absent—None.

So it was ordered that senate bill No. 75 had passed notwithstanding the objections and veto of the Governor.

Mr. Watkins, chairman of the committee on enrolled bills, submitted the following:

Mr. Wager moved that 1,000 copies of the Governor's veto message to senate bill No. 75 be ordered printed.

Mr. Watts moved to amend the motion by adding, for political purposes.

Which amendment Mr. Wager accepted as part of the original motion.

On the passage of the foregoing motion, the ayes and nays were called for by Messrs. Wager, Veatch and Irvine.

On this question the roll was called and the vote was:

So the motion failed to prevail.

The President announced that he was about to sign senate bill No. 75 as having passed over the Governor's veto, and shortly afterwards stated that he had signed the same.

Mr. Gray introduced senate joint resolution No. 8 as follows:

Mr. Watts moved that senate joint resolution be laid on the table.

Which motion prevailed.

By unanimous consent, Mr. Tongue, chairman of the special committee appointed under senate resolution No. 16, submitted the following :

REPORT.

SENATE CHAMBER,
SALEM, Oregon,
February, 1889. }

Mr. President:

Your committee appointed under senate resolution No. 16, to inquire into and report to the senate what necessity existed for the changes in the common school text-books lately made in this State, the expense attendant upon such changes, and the means by which such changes were brought about, have had said matters under consideration, and beg to report concerning the same as follows:

In the course of our investigations we have examined into the history of the series of text-books used in the common schools of the State, have corresponded with all the county superintendents of the State, and have obtained the opinions of prominent educators, teachers and school officers, upon the subjects under consideration.

We find that by the late vote of the county superintendents the entire series of school text-books at present in use has been re-adopted for a further term of four years from the first of October, 1889, excepting that the "New National Series" of readers is substituted for the "Independent Series;" Fish's written arithmetics are substituted for Brooks' series of written arithmetics; Robinson's algebra, geometry and trigonometry are substituted for Brooks' algebra, geometry and trigonometry, and Bryant & Stratton's book-keeping is substituted for Lyte's book-keeping.

NECESSITY FOR THE CHANGES MADE.

We find that the readers now in use have been in use for about ten years, and the demand for a change was almost universal.

The "New National" readers are among the latest and best

readers published, are of recognized merit as educational books; contain improved type, are well bound, of good material, and well illustrated.

The new readers are exchanged free for the old, so that the change costs nothing. Newer, fresher and better books are obtained.

New books are received in exchange for the old, and your committee are of the opinion that the change is a great public benefit and a saving to the people.

CHANGE IN ARITHMETIC.

Brooks' series of written arithmetics had been in use eight years, and a desire for a change seems to have been very general. It seems to have been generally claimed that many of the problems are too difficult for the pupils who use the books, and the gradation and arrangement is not suitable for use in ordinary schools.

Fish's written arithmetics, consisting of two books, Fish's No. 1 and Fish's No. 2, are, by the present vote of the county superintendents, adopted instead. These arithmetics are said, by teachers and educators, and persons who have had opportunities of being informed on the subject, to be practical and suitable books for common school use, and to be excellent arithmetics.

Fish's arithmetics are in use, as your committee are informed, in Nevada, Colorado, Washington Territory, Montana, Idaho, and in portions of California, as supplemental to the State series.

The retail price of Brooks' arithmetics displaced are as follows:

Brooks' primary, 25 cents.

Brooks' elementary, 45 cents.

Brooks' written, 90 cents, making the set cost \$1.60.

The exchange prices of the new arithmetics are as follows: Fish's No. 1, 15 cents; Fish's No. 2, 30 cents, and old books of a lower grade may be exchanged for the new books of a higher grade.

This exchange of lower grade old books for higher grade new books is an important item, as it enables the pupils to use a large number of primary books which they had finished and would have had to throw aside had the Brooks' remained in use.

The introductory prices of the Fish's are as follows: Fish's No. 1, 30 cents; Fish's No. 2, 60 cents.

The exchange and introductory prices are not limited as to time, but are to continue until all the schools are supplied with books.

The retail prices afterward are as follows: Fish's No. 1, 35 cents; Fish's No. 2, 75 cents; making the set cost \$1.10, or 50 cents less than the set of Brooks'.

We have secured all the information possible, and made careful estimates as to whether or not the change in written arithmetics will entail any serious expense.

We find that the first expense will not be large, while in the end it will save considerable expenditure.

The changes made in algebra and geometry and trigonometry affect but few people and seem to be satisfactory to those using them.

Your committee has not considered the change in these books of sufficient general interest to warrant a special examination.

From all the evidence obtained by your committee, we are led to conclude and believe that in making the changes in school books, the several county superintendents acted carefully, conscientiously and in accordance with their best judgment, and we incline to the opinion that the changes will be satisfactory to the public.

There is one matter connected with the change to which we desire to call the attention of the legislature.

Publishers of the various school books, seem to have been fully informed quite early of the contemplated change.

There was active competition among a considerable number of these to secure the adoption of their respective books for use in the State.

The State Superintendent of Public Instruction, in pursuance of a resolution adopted by the State board of education, sent a written notice about the first of September, 1888, to all of the known publishers of school books in the United States, about 112 in number, notifying such publishers of the approaching vote of the county superintendents for the selection of a series of text-books to be used in the common schools of this State, and inviting the publishers to submit to the State board and to the county superintendents proposals and prices at which they would furnish books and samples of their books for examination.

We find that forty-one different publishing houses, in response to this notice, filed bids and proposals and submitted prices, and that nearly all of them also furnished the county superintendents with sets of their books for examination.

The county superintendents were thus placed in possession of samples of a very large number of school books and the prices of the same, and had ample opportunity to compare the books and judge of their relative merits and excellence.

The several superintendents were thus placed in possession of all facts necessary to form a correct judgment. Had the exertion of rival publishers ceased at this, public suspicion would not have been aroused. But long before any circular was sent them, and many

months before the time of voting, quite a number of active, persistent agents were sent out to make a personal, vigorous canvass with the various county superintendents. They visited almost every one of the officials even in the most remote part of the State. Their efforts were a source of much annoyance to the superintendents, and aroused widespread distrust in the public mind. We attribute to this cause the public feeling that has made this investigation necessary.

Your committee would recommend that before another change in school books is voted upon the law should be amended so as to require that all communication of publishers, or their agents, with the county superintendents in reference to such changes should be in writing, and that such communications should be sent to the State board of education with the votes of the superintendents. That all other communication by publishers, or their agents, or any one directly or indirectly interested in their interest, with the superintendents in reference to such changes should be prohibited; and that the bid of any publisher disregarding such provision should be rejected.

Your committee would further recommend that the State board of education, before any change goes into effect, should be empowered to require from all the publishers of all school books adopted a written contract or undertaking, with proper security, that the prices named by such publishers, both wholesale and retail, be not increased during the period such books remain in use; and that any school district of the State desiring to purchase books for the patrons of its school shall be permitted to purchase such books from such publishers at the wholesale prices.

Your committee would venture to suggest that the list of textbooks prescribed by the State board of education is quite extensive, and induces, as we believe, a tendency on the part of school teachers to unduly hasten their pupils over all the books of the list.

Your committee is of the opinion that to study a few books well is preferable to lightly skimming over a large number of books.

THOS. H. TONGUE,

Chairman.

T. E. CAUTHORN,

G. A. STEEL.

On motion of Mr. Tongue, the foregoing report was ordered printed for the use of the senate.

On motion of Mr. Mackay, the senate adjourned.

The senate met pursuant to adjournment and was called to order by President Simon.

The roll was called.

All the Senators were present except Messrs. Carson, Chamberlin, Chandler, Stanley, Steel and Tongue.

By unanimous consent, Mr. Fullerton, chairman of the joint special committee to examine into the affairs of the board of State land commissioners, under senate concurrent resolution No. 4, submitted the following:

REPORT.

SENATE CHAMBER,
SALEM, Oregon,
February 19, 1889. }

Mr. President:

Your committee appointed under senate concurrent resolution No. 4, to examine the books and accounts of the board of commissioners for the sale of school and university lands, have completed our labor and beg leave to report as follows:

We have, with the assistance of competent accountants, pursued our investigation in as thorough a manner as the time at our disposal would permit. The accounts for lands sold have been carefully compared with the entries in the cash books and with the endorsements on the notes given for deferred payments; that we have carefully examined the records of certificates of land sales, the State Treasurer's receipts from February 2, 1887, to December 31, 1888; that we find the said papers and records neatly kept and systematically arranged; that the clerical work of said office is exceedingly well performed, and we find that the system of accounts and the general manner of conducting the business of the office to be plain, complete and comprehensive.

To properly investigate said office it would require a much longer time than at our disposal, as the interest paid on each note should be computed.

That the number of acres which have been approved to the State by the general land office, the different grants of congress to the State of Oregon, the number of acres disposed of by the State and the amount received therefor, should be correctly ascertained. If a thorough investigation of said office be made from February 1, 1880, to December 31, 1888, then at the convening of the Oregon legisla-

ture in the future it would not be difficult to properly investigate said office during each session thereof.

We recommend that section 3 of an Act for the selection and sale of State lands remaining unsold be amended to read as follows :

When any such application is filed for the purchase of land, to be selected in lieu of the 16th and 36th sections or to compensate for deficiency of school land in fractional townships, the clerk of the board of school land commissioners shall furnish the deficiency for the selection of the tract contained in the application, and the land commissioners shall thereupon select the said land in the proper land office in the manner prescribed by the laws of the United States; and when said selection shall be accepted by the register of any land office, the clerk of the board of school land commissioners shall notify the said applicant to pay the purchase price of said land within sixty days from the date of such notice, in the manner and on the terms now provided by law; and if said applicant shall fail to make such payment as aforesaid, the land shall be subject to the claim of the next legal applicant.

The said section 3 now in force compels the applicant to furnish the deficiency in the 16th and 36th sections to be used for a basis for the selection of indemnity school land, and, therefore, instead of being for the benefit of the people of the State of Oregon, as the law makers intended, the said section 3 favors those who understand looking up the deficiency in the 16th and 36th sections in townships where lieu lands have not been taken, for a very few applicants understand the manner of looking up the deficiency in the 16th and 36th sections, thus the basis for the selection of indemnity school land may be controlled by those who have knowledge of the deficiency in the 16th and 36th sections to the exclusion of applicants who have not this information, hence the injustice of said section 3 is clearly apparent.

We further recommend that the price of school land be increased to two dollars per acre.

Respectfully submitted,

J. C. FULLERTON,
Chairman.

A. C. STANLEY,
CHAS. GOODNOUGH,
S. P. MOSS,
J. E. BLUNDELL,
Committee.

On motion of Mr. Fullerton, the foregoing report was ordered printed.

Mr. Steel, chairman of the joint special committee to examine into the conditions and affairs of the State Treasurer's office, in pursuance of house concurrent resolution No. 1, submitted the following:

REPORT.

SENATE CHAMBER,
SALEM, Oregon,
February 19, 1889. }

Mr. President:

Your committee appointed under house concurrent resolution No. 1 to examine the books and accounts of the State Treasurer's office having performed the duty entrusted to it, begs to report as follows:

By such personal investigation as our other legislative duties gave us time to bestow on the subject, assisted by competent accountants, we have found the following facts:

1. We have examined all the items of money received during the past two fiscal years and compared the statement of such items contained in the Treasurer's report with the duplicate receipts given by him and filed with the Secretary of State, and find the same to agree in all points, and that the totals are correct.

2. We have given a similar examination to the disbursements, and find all moneys have been paid out on warrants issued by the Secretary of State as provided by law, and that the said payments are all correctly stated in the report and charged to the proper funds. By an examination in detail of every note and mortgage in the common school fund, university fund, and agricultural college fund, we have found them all correctly reported except that the note and mortgage of H. E. Cross for \$3,000 reported charged to the common school fund should be charged to the agricultural college fund. The Treasurer has made the proper transfer on his books which diminishes the balance reported to be in the agricultural fund \$3,000 and increases the balance in the common school fund to a corresponding amount.

3. We have examined and counted the securities deposited by various foreign insurance and express companies, and find that they conform to the requirements of the law, and agree in amounts with the report of the Treasurer. We examined the various books of the department, and find the balances reported by the Treasurer to be correct, and correspond with his biennial report.

4. By personal inspection and from the report of the accountants employed, we find that the business of this department has

been growing enormously in the past two years, and that it will be impossible in the future for the Treasurer with the clerical force now allowed by law to keep the accounts and the records of this office in a business-like way, and as they ought to be kept.

As an indication of this increased volume of business, the common school fund, which two years ago was \$518,617.64, in 357 notes, is now by reason of land sales, increased to \$1,428,071.14, in 1130 notes and mortgages. The management of this fund by rule of the board now devolves on the Treasurer, and this and the general increase of the business of the State requires more clerical aid, and we recommend the same.

All of which is respectfully submitted.

G. A. STEEL,
C. A. COGSWELL,
R. P. EARHART,
H. J. BEAN,
R. C. MILLER.

On motion of Mr. Eakin, the foregoing report was adopted and ordered printed.

Mr. Sinclair, chairman of the committee to visit and examine into the condition and affairs of the Oregon school for the blind, submitted the following:

REPORT.

SENATE CHAMBER,
SALEM, Oregon,
February 18, 1889. }

Mr. President:

In compliance with the requirements of house joint concurrent resolution No. 15, your committee, accompanied by a like committee appointed by the house to visit the Oregon school for the blind, have performed that duty and beg leave to submit the following report:

We find that the premises are neatly kept, and that while the surroundings are quite humble and home-like, the school under the management of the present superintendent is in all respects creditable to the State, and that the generous provisions made for this most unfortunate class of our fellow citizens, have been faithfully applied in promoting the health, comfort and happiness of the pupils. Too much cannot be said in commendation of both officers and teachers who are charged with the difficult task of instructing those who are deprived of one of the principal aids in obtaining knowledge, to become self-reliant, and stimulating in them a desire

for industrial pursuits. Your committee are of the opinion that to unite the deaf mute and blind schools under one management would be a serious obstacle in the way of inducing parents to allow their unfortunate loved ones to accept the benefits now offered by the broad philanthropy of a generous public; and while it may appear to some that the appropriation for the support of the few now in attendance at the school for the blind is a heavy burden, have we not reason rather to rejoice that the inestimable blessing of the light of day has been denied to so few of our fellow creatures? When we come to compare the cost per pupil in the Oregon school for the blind with like costs in schools for the blind in some of our sister States, we find that the same is not in excess of the average of the costs in other schools, as follows: In the Alabama school for the blind, the cost per pupil is \$266.66 $\frac{2}{3}$; in Louisiana it is \$375 per pupil; in Minnesota it is \$238 per pupil, while in our own State it is about \$333.33 per pupil, showing conclusively that the average cost in our school is but very little above the average cost of pupils in the blind schools of other States. This showing is the more encouraging when we come to reflect that the facilities for the education of the blind in other States are far superior to those possessed by the school in this State. We would therefore recommend that the annual appropriation of \$4,000 for the two years beginning January, 1889, as asked for by the honorable the State board of education, for salaries of officers and teachers and the general expenses of the school, be appropriated, and that the further sum of \$1,000 for needed improvements, repairs, and furnishing apparatus for industrial purposes. Total amount of appropriation recommended \$9,000.

In concluding this report your committee wish to state that they have inquired into and thoroughly investigated all charges against the management of the Oregon school for the blind, and are fully satisfied that there is no foundation for any of the complaints brought to their knowledge.

All of which is most respectfully submitted.

(Signed.)

W. SINCLAIR,
T. E. CAUTHORN,
Senate Joint Committee.

On motion of Mr. Veatch, the foregoing report was adopted.

Mr. Watkins, chairman of the committee on enrolled bills, submitted the following:

That we cannot express too much gratitude to the matrons and ladies in charge of the home; and whereas your committee recommends the State to appropriate two thousand dollars (\$2,000) for the matrons and help at the home; and whereas we find about fifteen acres of land at the home, and we recommend that a suitable man be employed to cultivate the lands to the best advantage for the home, and to attend to any other necessary work about the home; and whereas your committee recommends that the State appropriate six hundred dollars (\$600) for said services, and we further recommend that the State appropriate twelve hundred dollars (\$1,200) for the general expenses of the home. HOUSE OF REPRESENTATIVES, }
SALEM, Oregon, }
February 20, 1889. }

Mr. President:

I am directed by the Speaker to inform you that the house has passed senate bill No. 165.

And the same is herewith transmitted for enrollment.

J. T. GREGG,
Chief Clerk.

Senate bill No. 165 was ordered enrolled.

The time having arrived for the consideration of house bill No. 237 under special order, the senate resolved itself into a committee of the whole to consider said bill, with Mr. Barin as chairman.

The committee of the whole having been dissolved, the senate was again called to order by President Simon.

Mr. Barin, chairman of the committee of the whole, submitted the following report:

REPORT.

SENATE CHAMBER, }
SALEM, Oregon, }
February 20, 1889. }

Mr. President:

Your committee of the whole senate, to whom was referred house bill No. 237, beg leave to report that they have had the same

under consideration, and would respectfully report it back to the senate with the recommendation that it do not pass.

L. T. BARIN,
Chairman.

Mr. Cogswell moved that the report of the committee be adopted.

On this question the ayes and nays were called for by Messrs. Veatch, Wager and Dimick.

The roll was called and the vote was:

Those voting aye were:

Messrs. Barin, Carson, Cauthorn, Cogswell, Dawson, Fullerton, Mackay, Moore, Norval, Raley, Sinclair, Stanley, Steel, Tongue, Wait, Watkins, and Mr. President—17.

Nays—Messrs. Chandler, Dimick, Eakin, Gray, Hatch, Hilton, Irvine, Looney, Veatch, Wager and Watts—11.

Absent—Messrs. Chamberlin and Hamilton—2.

So the report was ordered adopted.

Mr. Tongue moved that house bill No. 237 be referred to a special committee of five hold-over Senators, of which Mr. Raley should be chairman, with instructions to report at the next session of the legislature of the State of Oregon.

Which motion prevailed and the bill was so referred.

On special request, Mr. Carson was granted leave of absence to attend to committee work for this evening.

Mr. Tongue moved that the rules be suspended and that he be allowed to introduce a bill of which previous notice has not been given.

On this question the roll was called and the vote was:

Those voting aye were:

Messrs. Barin, Dimick, Eakin, Fullerton, Gray, Hamilton, Hatch, Hilton, Irvine, Looney, Mackay, Moore, Norval, Raley, Sinclair, Tongue, Wait and Watkins—18.

Nays—Messrs. Chandler, Veatch, Wager, Watts, and Mr. President—5.

Absent—Messrs. Carson, Cauthorn, Chamberlin, Cogswell, Dawson, Stanley and Steel—7.

So the senate refused to suspend the rules and the motion was lost.

By special request, leave of absence was granted Mr. Sinclair on account of illness for the evening.

The Governor returned senate bill No. 166, for the reason that the enacting clause had been omitted therefrom, whereupon Mr. Dimick asked and obtained leave to withdraw said bill from the files.

By unanimous consent, Mr. Dimick introduced senate bill No. 209, being a bill for an Act to amend the charter of the city of Salem.

Mr. Dimick moved that the rules be suspended and that the bill be read the first time by title.

The roll being called, the motion prevailed by the following vote:

Those voting aye were:

Messrs. Cogswell, Dimick, Fullerton, Gray, Hamilton, Hatch, Hilton, Irvine, Looney, Mackay, Moore, Norval, Raley, Stanley, Tongue, Veatch, Wait, Watkins, Watts, and Mr. President—20.

Nays—None.

Absent—Messrs. Barin, Carson, Cauthorn, Chamberlin, Chandler, Dawson, Eakin, Sinclair, Steel and Wager—10.

So the rules were suspended and the bill read the first time by title and passed to a second reading without a question.

Mr. Dimick moved that the rules be further suspended and the bill be read a second time by title.

On this question the roll was called and the vote was:

Those voting aye were:

Nays—None.

Absent—Messrs. Barin, Carson, Cauthorn, Chamberlin, Chandler, Dawson, Eakin, Sinclair, Steel and Wager—10.

So the rules were suspended and the bill was read a second time by title and passed to a third reading.

Mr. Dimick moved that the rules be still further suspended and the bill be read the third time and placed upon its final passage.

On this question the roll was called and the vote was:

Those voting aye were:

Messrs. Barin, Cogswell, Dimick, Eakin, Fullerton, Gray, Hamilton, Hatch, Hilton, Irvine, Looney, Mackay, Moore, Norval, Raley, Stanley, Tongue, Veatch, Wait, Watkins, Watts, and Mr. President—22.

Nays—None.

Absent—Messrs. Carson, Cauthorn, Chamberlin, Chandler, Dawson, Sinclair, Steel and Wager—8.

So the rules were suspended and the bill was read the third time.

The question now being, "Shall the bill pass?" the roll was called and the vote was:

Those voting aye were:

Messrs. Barin, Cogswell, Dimick, Fullerton, Gray, Hamilton,

Hatch, Hilton, Irvine, Mackay, Looney, Moore, Norval, Raley, Stanley, Tongue, Veatch, Wait, Watkins, Watts, and Mr. President—21.

Nays—None.

Absent—Messrs. Carson, Cauthorn, Chamberlin, Chandler, Dawson, Eakin, Sinclair, Steel and Wager—9.

So the bill passed, and there being no objections, it was ordered that the title of the bill stand as the title of the Act.

Senate bill No. 123 was read the third time.

Mr. Fullerton moved a call of the senate.

The roll being called, all the Senators were present except Messrs. Carson, Cauthorn, Chamberlin, Chandler, Dawson, Dimick, Eakin, Norval, Sinclair and Steel.

The Sergeant-at-Arms was instructed to notify the absent members to appear within the bar of the senate, and the Doorkeeper to attend the door.

On motion of Mr. Fullerton, the further call of the senate was dispensed with.

Mr. Tongue moved to refer senate bill No. 123 to the committee on assessments and taxation with instructions to amend as follows:

Strike out all after the enacting clause and insert the following: That from and after the first day of September, 1889, no indebtedness of any kind shall be deducted except at its value as a credit. All Acts and parts of Acts in conflict herewith are hereby repealed.

On motion of Mr. Raley the above amendments were indefinitely postponed.

The question now being, "Shall the bill pass?" the roll was called and the vote was:

Those voting aye were:

Messrs. Barin, Dimick, Eakin, Gray, Hamilton, Hatch, Looney, Moore, Wait, Watts, and Mr. President—11.

Nays—Messrs. Fullerton, Hilton, Irvine, Mackay, Stanley, Raley, Tongue, Veatch, Wager and Watkins—10.

Absent—Messrs. Carson, Cauthorn, Chamberlin, Chandler, Cogswell, Dawson, Norval, Sinclair and Steel—9.

So the bill failed to pass.

By unanimous consent, Mr. Moore introduced the following resolution:

SENATE RESOLUTION NO. 10.

Be it Resolved by the Legislative Assembly of the State of Oregon:

That the Secretary of State is hereby authorized and instructed to have the journals of the legislative assembly, and the Acts, reso-

lutions and memorials thereof copied for the use of the State Printer, and that the original copy of such journals, Acts, resolutions and memorials be retained on file in his office as custodian of the records of the State; the compensation for such copying to be such as is prescribed by law for like services.

Mr. Moore moved that senate joint resolution No. 10 be adopted.

On this question the roll was called and the vote was:

Messrs. Barin, Cogswell, Dimick, Eakin, Fullerton, Gray, Hamilton, Hatch, Hilton, Irvine, Looney, Mackay, Moore, Raley, Stanley, Steel, Tongue, Veatch, Wait, Watkins, Watts, and Mr. President—22.

Nays—None.

Absent—Messrs. Carson, Cauthorn, Chamberlin, Chandler, Dawson, Norval, Sinclair and Wager—8.

So senate joint resolution No. 10 was adopted.

The time having arrived for the special order, being the consideration of senate bill No. 10, the question was asked, "Shall the bill pass?"

On this question the roll was called and the vote was:

Those voting aye were:

Messrs. Gray, Raley and Wager—3.

Nays—Messrs. Barin, Cogswell, Dimick, Eakin, Fullerton, Hamilton, Hatch, Looney, Mackay, Moore, Stanley, Steel, Tongue, Wait, Watkins, Watts, and Mr. President—17.

Absent—Messrs. Carson, Cauthorn, Chamberlin, Chandler, Dawson, Hilton, Irvine, Norval, Sinclair and Veatch—10.

So the bill failed to pass.

MORNING SESSION.

SENATE CHAMBER,
SALEM, Oregon,
February 21, 1889. }

The senate met at the usual hour and was called to order by President Simon.

The roll was called.

All the Senators were present.

Prayer was offered by Mr. Brown of Salem.

On motion of Mr. Watts, the reading of the journal of yesterday was dispensed with.

Mr. Sinclair, chairman of the joint special committee to inquire into the workings of the Oregon fish commission by virtue of house joint resolution No. 2, submitted the following:

REPORT.

SENATE CHAMBER,
SALEM, Oregon,
February 20, 1889. }

Mr. President:

Your committee appointed by virtue of house joint resolution No. 2, to inquire into the workings of the Oregon fish commission and examine the accounts of the same, report:

We have examined the accounts of said commission and find that their expenditures have been \$12,000, for all of which we find vouchers in due form. The sum of \$3,500 was contributed by those interested in fishing industries within the State and Washington Territory, which was duly expended by said commission in enforcing the laws protecting fish and in and about the hatchery.

We find from the statement of fishermen and others that the commission by their efforts succeeded in having the laws for the protection of fish observed to a very general extent, and considering the moderate means at the disposal of the commission for that purpose, their work in this line has been very effective.

We also find that their management of the Clackamas hatchery has been entirely successful, and that since they have turned the hatchery over to the United States, the State ought to appropriate money to enable the commission to complete the hatching and dis-

tribution of the eggs and young salmon remaining in the hatchery after the first of November of each year.

We also think that the recommendation of the commission, that there should be at least three hatcheries on the Columbia and its tributaries, would be a good measure, and that by so doing the run of salmon can be perpetuated; and we would recommend a liberal appropriation therefor, especially in view of the fact that there is a bill looking to the taxing of fish taken from the waters of the State.

We think the efforts of the commission and liberality of the cannery men in raising \$3,500 for the purpose of enforcing the law and sustaining the Clackamas hatchery ought not to be overlooked, as it shows that a genuine interest has been taken in the matter.

We recommend a liberal appropriation for the pay of the commission and for the establishment of hatcheries in addition to the amount of \$5,000 paid by the General Government.

Respectfully submitted,

W. SINCLAIR,
Chairman Joint Committee.

On motion of Mr. Tongue, the foregoing report was ordered printed.

By special request, leave of absence was granted Mr. Norval until to-morrow noon.

By request, Mr. Chamberlin was excused from attendance to-day on account of illness.

Mr. Watkins, chairman of the committee on enrolled bills, submitted the following:

REPORT.

SENATE CHAMBER,
SALEM, Oregon,
February 20, 1889. }

Mr. President:

Your committee on enrolled bills, to whom was referred senate bills Nos. 66, 86, 161, 115 and senate joint resolution No. 9, beg leave to report the same back to the senate as correctly enrolled.

GEO. WATKINS,
Chairman.

Mr. Sinclair, chairman of the joint special committee to investigate the affairs of the State Printer, submitted the following:

REPORT.

SENATE CHAMBER,
SALEM, Oregon,
February 20, 1889. }

Mr. President :

Your committee appointed to investigate the manner in which the public printing has been done for the State during the last two years, have to report that they have selected as expert to pass upon and measure the work, Mr. George Hibbert, a practical printer of high professional standing as a member of the Typographical Union of Oregon, who conducted the examination with diligence and care.

Before taking his seat as State Printer, Mr. Baker procured a complete plant, consisting of type, presses, etc., at an outlay of \$9,000 and proceeded to occupy the rooms in the capitol building, where his office is now situated. This arrangement has been economical and convenient, avoiding delay to the legislature when in session and the various other departments during the recess thereof.

Mr. Baker informs your committee that he does no printing other than State work, hence does not compete with private printing concerns.

Your committee commends the action of Hon. R. P. Earhart, ex-Secretary of State, and Hon. Geo. W. McBride, Secretary of State, in providing rooms and other conveniences for the State Printer, and we recommend that this legislature instruct the Secretary of State to continue the same.

The well fitted office of the State Printer and his large force of skilled workmen have enabled him to perform the legislative printing with promptness and accuracy, and this committee would withhold just commendation did it not call attention to the saving of valuable time to this legislature thereby.

The prices allowed the State Printer by the State printing experts have been fair and reasonable. In some items the measurements of Mr. Hibbert vary from those of the State experts, but the total amounts allowed by them were not in excess of the prices prescribed by law.

The printing done for the land department is paid for out of the general fund; and as the volume of business in connection with the sales of lands and the lending of money on account of the school fund is rapidly increasing, it would seem proper that the paper, printing and binding for such purposes be paid out of that fund.

The paper necessary for the public printing is paid for out of

the printing fund, and the purchase of unusually large supplies of paper has been rendered necessary by reason of the increased size of the several reports and of the laws and journals and the additional reports of the commissioners and officers created by recent legislation.

We find that the State Printer has given his receipt to the Secretary of State for paper furnished for the State printing, and has kept an account of the use of the same as required by law. The amount of paper used for public printing, together with that now on hand, equals the total amount furnished by the Secretary of State; and we find that all the paper used has been for the public printing.

The excellent style in which the printing has been done, being equal to that of any other State in the Union, deserves especial commendation.

Your attention is directed to the report of the committee expert, which gives a more detailed account of the transactions of the office.

Respectfully submitted,

WALTER SINCLAIR,

Chairman Joint Committee.

A. H. CROOK,

Chairman House Committee on Printing.

WALTER SINCLAIR,

Chairman Senate Committee on Printing.

REPORT OF EXPERT.

To Messrs. Sinclair, Steel and Cogswell, on the part of the Senate, and Messrs. Crook, Hume and Miller, on the part of the House, Joint Committee to investigate the manner in which the public printing has been done during the past two years—

GENTLEMEN: Herewith I submit my report to you as expert to measure the work performed by the State Printer during the past two years:

I have carefully measured and examined the work performed and compared my measurements with the bills rendered by the State experts for which the State Printer received pay, and the rates allowed have been according to law. While my figures do not in all instances agree with those of the State experts, in the aggregate the measurements have been just and reasonable.

I find that the printing has been executed in a manner not excelled by that of any other State in the Union. By comparison with the work of the past State Printers of Oregon, it shows better work and has been done with much greater dispatch and promptness.

At least 25 per cent more printing has been done in the past two years than during the same period of any previous State Printer, owing to the growth of the State, which necessitated a general increase of printing in the several departments.

Shortly after entering upon the duties of my position, I found that I could not properly conduct the investigation without additional clerical assistance, whereupon the chairmen of the senate and house committees, to whom I applied, selected three clerks, who rendered valuable aid in prosecuting the investigation.

The cost of printing done during the last two years for the several departments, including deficiencies in bills filed prior to December 31, 1888, is as follows: For the fourteenth biennial session, which includes senate and house bills, resolutions and memorials, \$4,889.73; miscellaneous work for both houses, \$118.79; session laws, \$867.50; school laws, \$637.17; road laws, \$99.38; insurance laws, 20.59; senate journal, \$917.30; house journal; \$1,129.45; judicial department, \$86.16; executive department, including the offices of Governor, Secretary of State, Treasurer, Superintendent of Public Instruction, board of land commissioners and public institutions, \$9,302.35. There has been miscellaneous printing done for which bills were submitted subsequent to December 31, 1888, amounting to \$1,717. The above does not include the uniform series of school blanks, for which special appropriation was made by the legislature of 1887, nor the printing for militia, the same being payable out of funds arising from special tax.

A careful account of the use of the paper furnished for the State printing is kept in a book showing the kinds and amounts used and the purpose to which the same is applied. Such account shows that due care has been observed in the use of the paper, so as to avoid unnecessary waste, and that all paper received by the State Printer has been used for public printing excepting that now in his possession.

I find that the printing ordered and performed for the State board of agriculture is in excess of the amount appropriated therefor and recommend that the Printer be paid for this work, which was necessary to the successful prosecution of the purposes and objects for which said board was constituted by law.

The pamphlet entitled "The Resources of the State of Oregon," printed by said board pursuant to an Act approved February 20, 1885, is not included in the above statement, not being payable out of the printing fund.

Respectfully submitted,

GEO. HIBBERT,
Expert.

REPORT.

SENATE CHAMBER,
SALEM, Oregon,
February 21, 1889. }

Mr. President :

Your committee appointed under senate concurrent resolution No. 3, to examine the books and accounts of the Secretary of State, have completed our labors and beg leave to report as follows:

We have, with the assistance of good and competent accountants, pursued our investigations and find that the records have been kept in a neat and systematic manner, and that the papers and files pertaining to the office have been kept in such a manner as to be readily referred to.

We have carefully examined all the accounts appertaining to the office, compared the stubs of the warrant books with the entries as made in the abstract of warrants and sub-fund books, from which the Secretary's biennial report is made, and have also compared the vouchers with the aforesaid abstracts and ledger postings and find that they have been correctly entered under their appropriate headings and the footings therein, and find them correct.

We find all the duplicate Treasurer's receipts filed in the office of the Secretary of State correctly entered and the total footings and ledger postings correctly made of each fund therein.

The expenditures have in all cases been restricted to the rates and amounts fixed by law, and in all matters in which the Secretary has had discretionary powers, careful supervision and economy has been observed.

We have been shown the various details of this office, and note with interest the care taken by the Secretary for the protection of all State records, the most important of which have been placed in the vault and all the records have been segregated and carefully labeled and placed away so as to be readily found for future reference.

We have compared the Secretary's printed report with the records and find it correct, except a few typographical errors, and we have found all the funds and all the vouchers correct and properly accounted for.

We find Secretary McBride's bookkeeper, Major S. L. Lovell, a neat, careful and competent accountant, under whose direct and personal supervision the work of this department has been performed. The records of the acts of the executive and of commissions and appointments are carefully kept by Mr. B. F. Giltner, chief clerk, and show promptness and accuracy in the dispatch of business in his department.

Respectfully submitted,

M. L. CHAMBERLIN,
GEO. CHANDLER,
J. T. APPERSON,
R. P. EARHART,
ROBERT A. MILLER.

Resolved, That it is the sense of the legislative assembly that while the Governor of the State may have been mistaken in his action in removing the State railroad commission, and while we believe the commission were honorable, honest and capable men, who performed their duties fully under the law, the creation of a new commission with an additional member, and imposing an additional expense on the State without granting any additional powers or improving the law in any respect, as the Governor has suggested, an unwise and unnecessary measure, and we fully endorse the Governor as to the objections urged against the proposed change in the commission law.

REPORT.

SENATE CHAMBER,
SALEM, Oregon,
February 22, 1889. }

Mr. President:

Your committee on public lands, to whom senate resolution No. 15, introduced by Mr. Irvine, was referred, beg leave to submit the following report:

That we have carefully examined the applications to purchase State lands made between the 1st of February, 1887, and the present time, in accordance with the above resolution.

That the certificates and deeds to State lands have been duly made by the board of school land commissioners in accordance with the interpretation of the law by the supreme court.

That the papers and records of the office of the board of school land commissioners are neatly kept and systematically arranged.

That we believe a large quantity of school land has been deeded to non-residents of the State of Oregon, for which the present board are in no way responsible.

That we believe that of the thousands of acres of school land which has been disposed of during the last two years by said board much of it is valuable timber lands. From the large school land sales in the last two years it is very evident that said lands are getting into the hands of land speculators.

We recommend the early passage of an Act that school land shall be sold to actual settlers only.

We further recommend that a law be enacted that no deed for State land shall contain more than three hundred and twenty acres to any one individual, and that deeds for more than three hundred and twenty acres of State land shall not be made to any one individual.

Chairman.
